MAYOR OF STEUBENVILLE, O., IS OUSTED

Court Decision Removes Mayor From His Office

Court Holds That Charges Of Dereliction In Office Are Substantiated

FIRST REMOVAL UNDER OHIO LAW

Acting Mayor Automatically Assumes Duties Of Office By Decision

(BULLETIN)
(International News Service)

STEUBENVILLE, O., Oct. 14.—Mayor John S. H. Patton today was permanently removed from office in a decision of Judge J. S. Paisley in common pleas court here.

The court held that charges of dereliction in office had been substantiated in evidence reviewed by him.

Dr. E. J. C. Sander, acting mayor since Patton's temporary suspension several weeks ago, automatically assumes the position of mayor by the verdict.

The removal was the first on record under Ohio's new ouster law.

Mahoningtown Man Steps On Stone Which Causes Him To Fall To The Ground

As the result of stepping on a stone which turned causing him to fall to the ground and fracturing his left hip, Martin J. Rusk of East Clayton street, is confined in the Shenango Valley hospital.

Mr. Rusk was returning to his home from the Baltimore & Ohio Power House where he was employed about eleven o'clock Wednesday evening when the accident occurred.

On account of his advanced years the injury is considered serious.

Traffic Slowed Up By Heavy Fog

(International News Service)

PITTSBURGH, Oct. 14.—Traffic throughout the Pittsburgh district was slowed up early today and thousands of office workers were late to work because of a heavy fog that blanketed this section of the state.

The temperature fell to 44 degrees at 9 a. m. today according to the local weather bureau. The city was on the northern rim of a heavy frost which extended southwest, down the Ohio river to Cairo, Ill., and south-east to Asheville, North Carolina.

SENATOR REED TO HEAD PROBE

Call Senate Committee To Meet In Chicago Next Monday For Deliberation

(International News Service)

ST. LOUIS, Oct. 14.—The Senate special investigating committee will meet in Chicago next Monday morning at 10 o'clock to turn its spotlight on the Indiana political activities of the Ku Klux Klan and charges of graft and corruption recently made there, Senator James A. Reed, chairman of the committee, told International News Service today.

The senator made his announcement just before departing for Joplin to fill a speaking engagement there today.

Following his speaking engagement at Joplin today Senator Reed will begin to direct the plans for his investigating committee. Speaking dates which had been arranged for the next two weeks in Missouri have been cancelled, although the senator said he hoped to return to the state later to do some campaigning for Congressman Harry B. Hawes, Demorcatic candidate for the United States Senate.

Arthur Wimer Is Given High Honor

A residential scholarship at the School of Journalism, Columbia University, New York City, has been awarded to Arthur Wimer of New Castle. The award was made for scholastic attainments last year. Mr. Wimer received the highest grades in the junior class and was one of two from this group whose standing entitled them to membership in the Columbia branch of the National Fraternity of Journalists. An article by him was also published in the year book, "Best Copy of 1925" as an example of good feature writing.

After receiving his degree in journalism next spring he will engage in newspaper work.

Dirigible Starts Trip To Detroit From Lakehurst

The dirigible, "Los Angeles," at Lakehurst, N. J., and Lieut. Commander Charles E. Rosendahl.

(BULLETIN)
(International News Service)

LAKEHURST, N. J., Oct. 14.—With fair weather predicted along her route, the dirigible Los Angeles "hopped off" for Detroit at 11:05 a. m. today from the naval air station here.

Forty-four persons were aboard the airship, including Rear Admiral William Moffett, chief of the bureau of aeronautics, the ship's destination is the Ford airport in Detroit where a mooring mast large enough to hold the Los Angeles has been erected.

The flight today began the first extensive cross country dirigible trip since the ill-fated Shenandoah, sister ship of the Los Angeles, crashed into the valley at Ava, Ohio, September 3, 1925. The route to be taken by the Los Angeles was to be almost the same as that followed by the Shenandoah.

Commander C. E. Rosendahl, in command of the Los Angeles, is one of the survivors of the Shenandoah disaster. He sketched out four tentative routes for today's flight. Rosendahl said he would not be certain which he would follow until he had tested weather conditions on the first leg of the flight. The ship is due back here in three days.

The big air vessel took off under ideal weather conditions. There was scarcely any breeze. A large crowd below cheered forth a bon voyage.

Route Is Given

Washington, Oct. 14.—The Los Angeles will follow route number 3 (three) on the way to Detroit, Lt. Commander C. E. Rosendahl, commander, advised the navy department just before the dirigible left Lakehurst at 11:05 o'clock.

The route, with the approximate

Queen Marie To Eat Real American Food On Board Ocean Liner

By JOHN GOETTE.
International News Service Staff Correspondent

ON BOARD THE S. S. LEVIATHAN, Oct. 14.—When in America eat as Americans do, is to be the slogan of Queen Marie of Roumania during her visit to the United States. And to be sure that she gets off to a right start the queen will be served with real American meals while on board the Leviathan, starting with lunch today. This she has requested.

The royal request caused a furore in the big ship's galley where all of the cooks are graduates of the best European schools of culinary arts. The situation was saved by the chief steward, Billie Linn, who handled the food problem for thousands of American doughboys during the World War when the Leviathan was a troop ship. Linn will personally cook the queen's American luncheons.

The queen was furthered trained in American ways last night by attending a movie picture on board.

Also arrangements are being made to treat the queen to a few selections of real American jazz for which purpose Allen White's troupe of Collegians of the University of California are to be brought up from their third class quarters to the royal suite.

Find Bodies Of Two Women In Shallow Water

(International News Service)

NEW HAVEN, Conn., Oct. 14.—The bodies of two women almost entirely without clothes but wearing hats were found beneath an overturned rowboat in shallow water at Morris Cove here today.

An unidentified man, whose memory appeared to be entirely gone, was found wandering about the Morris Cove streets by police shortly after the bodies were found.

Lying on the shore near the spot where the bodies were found was a pocket book belonging to Barney Hanca, of Philadelphia, a rigger employed in the construction of the new Yale theatre here.

The harbor police squad this afternoon was searching the waters of Morris Cove, at the lower end of the harbor, seeking Hanca's body or something that might reveal the identity of the dead women.

San Antonio Gets Legion Convention For Year Of 1928

(International News Service)

PHILADELPHIA, Pa., Oct. 14.—San Antonio, Texas, will entertain the American Legion in 1928.

The boys decided to meet two years hence in the Lone Star State after hearing bids from San Antonio, Miami, Detroit, and Denver.

Dan Moody, governor-elect of Texas, extended San Antonio's invitation. Among other things, he promised "first class hotel rooms at $2.50, ham and eggs at 40 cents, coffee at a nickel and free automobile transportation."

Star Witness In McPherson Trial Resumes Testimony

Reveals Aimee Angling For Another Woman To Play Role Of "Miss X"

(International News Service)

LOS ANGELES, Oct. 14.—After the second day on the witness stand during which time she flatly accused Mrs. Aimee Semple McPherson, evangelist, of coaching her in details of the alleged hoax in connection with the asserted kidnaping of Mrs. McPherson, Mrs. Lorraine Wiseman-Sielaff, co-defendant and the state's star witness in the charged of conspiracy lodged aaginst themselves and Mrs. Minnie Kennedy, mother of Mrs. McPherson, was scheduled to take the stand again today.

Miss Bernice Morris, secretary to R. A. McKinley, a blind lawyer, who was alleged to have been dickering with Mrs. McPherson to produce her purported kidnapers, was slated to follow her on the stand. McKinley was killed in an automobile wreck several weeks ago.

Mrs. Sielaff testified that Mrs. McPherson was angling for another "Miss X" to play the role of companion to her former radio operator, Kenneth G. Ormiston, at the Carmel cottage, even as she was training the witness how she should act the role.

(International News Service)

WASHINGTON, Oct. 14.—In a campaign against "Vareism", Senator George W. Norris, leader of the senate Progressive bloc, will invade Pennsylvania Saturday on behalf of Wilson B. Wilson, Democratic senatorial nominee, it was announced here today.

Norris' itinerary will include the following engagements:

Altoona, October 16; Scranton, October 18; Wellsboro, October 19; Lancaster, October 23; Pittsburgh, October 26; Philadelphia, October 28; Mauch Chunk, October 29, and Harrisburg, October 30. Other speaking dates will be announced later.

Two Are Hurt As Train Hits Auto

(International News Service)

PITTSBURGH, Oct. 14.—Vance Aikens and Viola Louer, both 16, local high school students, were in a hospital here today suffering from internal injuries sustained when an automobile in which they were riding with a married sister of Miss Louer and a baby was struck by a passenger train at Hutton Crossing, near here.

The sister, with her baby, escaped injury. Aikens, who was driving, told police a heavy fog obscured his view of the approaching train.

NEW CASTLE SEEMS CERTAIN TO SECURE BIG '27 CONVENTION

Enthusiasm Shown By Hosts Of Delegates At Reading For New Castle In 1927

Lawrence County Delegates Receive Honor At Convention Sessions

(Special To The News)

READING, Pa., Oct. 14.—Although the selection of the convention city of 1927 will not be made until Friday, it begins to look as though the selection will be merely a ratification of the popular demand here.

"New Castle in 1927" is becoming as much a part of the convention vocabulary as "buttered toast and coffee" is in the restaurants. The Lawrence county delegates simply inundated the convention with New Castle propaganda and if anybody has other ideas as to where the convention should be held, they are keeping their ideas a secret.

Looks Certain

It seems morally certain that 1927 will see the convention in the new Scottish Rite Cathedral in New Castle. Everybody seems to be taken with the idea, and the New Castle Chamber of Commerce booklets which have been distributed have become souvenirs of the convention.

All of the Lawrence county delegation are wearing the blue ribbons awarded to 100 per cent counties. And in addition to this honor Lawrence county has the distinction of having the delegate with the best record of attendance present. He is William Botham of the Wesley M. E. church. Mr. Botham has been a superintendent and teacher for 58 years.

Wednesday afternoon Robert M. Strickler, president of the Lawrence County Sabbath School Association, spoke before the convention, his subject being "The Right Kind of

Cleveland Sleuths Called Into Probe Of Child's Death

Mystery Surrounds Finding Of Three-Year-Old Child In Swampland

(International News Service)

CLEVELAND, O., Oct. 14.—Cleveland detectives were today put on the trial to discover how Isabel Zandarski, 3, of East Orwell came to her death. Inspector C. W. Cody detailed two men to go there and investigate the case.

"It looks to me as if that child was murdered and that persons already questioned have not told the truth," Cody declared. "If Isabel was killed accidentally why should such efforts be made to hide the details?"

The inspector's action was taken following a request for aid in solving the case by Sheriff J. D. Hannum of Ashtabula county.

The child's body was found in a swamp near her home at Orwell after she had been missing three weeks.

SAYS LETTERS ARE STOLEN

New Development In Mrs. Aimee McPherson Case At Los Angeles

DOCUMENTS HAVE IMPORTANT BEARING

(BULLETIN)
(International News Service)

LOS ANGELES, Oct. 14.—Important documents bearing on the Aimee Semple McPherson case, including a letter received by the evangelist from Kenneth G. Ormiston, her former radio man, on August 8, have been stolen from the office of S. S. Hahn, attorney for Mrs. Lorraine Wiseman-Sielaff, confessed perpetrator of the "Miss X" hoax announced today.

In Secret Compartment

Hahn said the documents were kept in a secret compartment in his office desk.

"With the exception of the letter from Ormiston to Mrs. McPherson, I can duplicate the other documents," Hahn declared.

In the Ormiston letter to Mrs. McPherson, sent from Chicago, Hahn said the radio man promised to keep in close touch with the Angelus Temple pastor and come to Los Angeles to help her whenever she wanted him to come.

"This letter had not been made public," Hahn added.

Telephone slips showing the evangelist called both Ormiston and Ormiston's attorney, Edward H. S. Martin, in Chicago, were included in the missing documents, Hahn said.

Officials at the district attorney's office pointed out that this was the third disappearance of important documentary evidence in the McPherson case during the past several weeks.

DEATH RECORD

George Lee Taylor, (73,) North Beaver township.

No Successor To G. A. Rigby Is As Yet Named

(International News Service)

PITTSBURGH, Oct. 14.—Appointment of a successor to the late G. A. Rigby, superintendent of the New Castle works of the Carnegie Steel Company, will be made only after a careful study of conditions at the plant by representatives of President W. G. Clyde and the board of directors, it was announced here today.

John C. Taggart, assistant superintendent, has been placed in temporary charge at the plant, until the board is able to consider the report requested of its representatives.

It is customary under such conditions as exist at New Castle to allow several weeks to pass before definite action is taken by the board to appoint a successor, officials of the Carnegie Company here said.

There's two celebrations that happen today, and both of them birthday events, and both of the people I know rather well, so of course there's a little expense. One of them marks this the first of its kind, the very first birthday he's had, for he's just a beginner in birthday events, this one year old bit of a lad. The other has seen many years come and go, but they've left little imprint of time, for to her every person means just one more friend, and its always a wonderful clime. And both of them got here on just the same day, but there's many a year in between, for one is the grandson and one the grandma, and both of them youngsters I ween. So we're marking today the event of their year, the milestone for each of these two, these youngsters I know in an intimate way, the weather is clear, sixty-two.

Former Royal Guard At Bucharest Palace For Queen Marie's Kansas City Guide

(International News Service)

KANSAS CITY, Mo., Oct. 14.—When Queen Marie of Roumania visits this city on her American tour she will have a member of her bodyguard a staid, rather pudgy middle-aged man—one of the many city detectives here. Harry Hirsch by name.

Twenty years ago at the royal palace at Bucharest, when trumpets blared to herald the approach of the queen, Harry Hirsch, a young lieutenant in the palace guard, snapped to a deferential salute and stood erectly at attention as Her Majesty passed by.

When he was told, therefore, that he again was to be one of Queen Marie's bodyguard, the man was all smiles.

"She is a wonderful woman—beautiful and democratic", he said in tribute to the Roumanian queen. "I even remember her when she was a girl, when she played about the palace grounds. Her father-in-law, King Carol I, was on the throne then".

Hirsch became a naturalized citizen of the United States nine years ago. He loves America, he says, and has no intention of ever returning to Roumania, the land of his birth. His father, Louis Hirsch, was one of Roumania's wealthiest bankers and landowners before his death. One of his brothers, Martin Hirsch, is now a lieutenant in the Roumanian army, stationed at Bucharest.

$7,000 Is Sum Asked In Suits Resulting Over Two Sandwiches

MADISON, Wis., Oct. 14.—Suits aggregating $7,000 were filed in circuit court here today over two ham sandwiches which had been purchased at the Cat'n Fiddle ice cream parlor here.

Mr. and Mrs. Edwin Prinzen brought the suits claiming that the two sandwiches purchased from Louis Rosses, proprietor of the place made them ill and impaired their health. Prinzen wants $2,000 damages and his wife $5,000.

Milton S. Kanaga At Trinity Church

Tomorrow, Friday, Archdeacon Milton S. Kanaga will visit New Castle to meet with the rector, wardens and vestry of Trinity church at supper in the guild room at 6:30 o'clock and afterward to lead an evening's conference with the officials of the parish on the financing of church undertakings and other matters pertaining to the work of official boards in the Episcopal church. He and the Rev. Dr. Owen of Sharon are visiting every parish and mission in the diocese of Erie for this purpose this fall.

GEORGE L. TAYLOR DIES SUDDENLY

(Continued from Page One)

Taylor probably having died almost instantly. He had been suffering for some time from high blood pressure and it is believed that the exertion of cutting down the tree brought on the stroke.

Mr. Taylor was born in Little Beaver township. He was the son of former Associate Judge Taylor deceased, of this county. He was one of 16 children eight boys and eight girls, all of whom with the exception of one, lived to maturity.

Married 50 Years.

Mr. Taylor was married 50 years ago on January 27, to Elizabeth Douglass, daughter of Mr. and Mrs. John Douglass of North Beaver township. Mr. and Mrs. Taylor celebrated their golden wedding anniversary at Westfield Grange on the 27th of last January over 140 friends being present on the occasion.

Deceased is survived by his wife Elizabeth Taylor and the following children: Mrs. George Smith and Mrs. Mary C. Miller of North Beaver township; Mrs. Charles Shearer of Bessemer; Samuel Taylor of Wampum and Frank Taylor of Dewey avenue, New Castle.

He is also survived by one brother, J. I. Taylor of the Harbor and two sisters, Mrs. Lucretia McCloskey of Palestine, O., and Mrs. Ada White of the Youngstown road.

Mr. Taylor had spent practically all his life in Little Beaver and North Beaver townships. He was a member of the Westfield Presbyterian church and the Westfield Grange. He was prominent in the agricultural and social life of the community. He was a man who had always been held in the highest esteem by residents of the community, where the news of his sudden death was received with many expressions of sympathy for the bereaved family. Funeral announcement later.

REPORT BANDITS GET LARGE SUM IN MAIL POUCHES

(Continued from Page One)

$1,700 in cash also was stolen, according to the People's National Bank, to which it was consigned.

Bandits Open Fire

The bandits overtook the truck in two large closed cars. As one of the automobiles ran down Jacob Christman, the motorcycle policeman, throwing him to the roadway, the other was driven opposite the truck and the bandits opened fire on the two men on the seat.

The driver, John Enz, was killed and Patrick Quinn, who accompanied him, was shot twice in the arm.

The bandits in the other car, after turning their machine gun on Christman, wounding him three times, ripped open the door of the mail car, seized the pouches and drove rapidly away. The second car disappeared in another direction.

Police said that as far as they knew today's hold-up was the first in the eastern part of the country in which a machine gun had been used.

The gun, a Thompson .45 caliber, was found in the street when police arrived.

The present outlook is that the fight will narrow down between Johnson and Savage, with the final provision that if neither can muster the necessary strength, Metcalfe will get the call, the latter being the "dark horse."

This was the situation today as the Legionnaires settled down to the final business of this year's meeting.

Pershing, originally slated for the 1927 commandership, has let the convention leaders know he would under no circumstances accept because of his advanced age and the arduousness of the duties to be entailed. He did, however, tell a committee he would be pleased to accept the honor of election of a lifetime honorary chairman.

Town Talk

A corps of workmen is still engaged in the task of removing the debris left at the Liberty theatre by the fire last spring. The old walls that remained standing after the fire are also being torn down. Some idea of the extent of the Liberty theatre fire can be gained from an inspection of the ruins at the present time. The wreckers have been at work for two weeks and still there is a large amount of work to do to clear the site of the fire debris. Work on the magnificent new theatre that is to occupy the site will probably be started within a few weeks.

One of the rural men of this district said today that he was safer on the road today than he ever had been in the past summer months. When asked why he said it was because of the fog. "Of course fog is hard to drive through and dangerous, but not near as bad as some of the "Miltons" that come into town on nice days. There was very little speed and much horn blowing this morning.

Many people are going around with a cough today. Those who have it are saying, "It is this fog we are having, and the changes in weather." The ones who don't, are saying, "It's because the chumps don't wear enough proper clothes."

George Cooper, for years a newspaperman in New York, was in New Castle a day or two since, coming in from the "wilds" of the Slippery Rock creek section where he has been spending several months. Cooper was enthusiastic about the beauties of the Lawrence county hills and valleys in the vicinity of Rose Point. "People of this county don't realize what a beautiful section of the United States they are living in" he said. "You can travel anywhere and you can't beat it."

SENATE COMMITTEE PLANS PROBE INTO INDIANA POLITICS

(Continued From Page One)

from many sources in Indiana, the Missouri senator who has had charge of the investigations which recently unearthed huge expenditures in the election campaigns in Pennsylvania and Illinois, decided this morning to have the committee look into the Indiana scandal.

Definite plans of the committee's proposed investigation would be worked out between now and the date for the Chicago meeting, Senator Reed said. Referring to the numerous reports that have emanated from Indiana and other points. The senator added that "too much speculation had been made about his plans".

The senator granted an interview during his breakfast at his hotel here just before departing from St. Louis.

Subpoenas probably will be issued today in Chicago for those whose names have come before the public in the Indiana scandal in which charges of graft and corruption have revolved around the figures of D. C. Stephenson, former grand dragon of the Indiana Klan, now serving a penitentiary sentence at Michigan City.

"I am not ready to discuss fully the plans of our committee", Senator Reed said. "I have called the committee to meet in Chicago next Monday and that is all I care to say. Our definite plans will be made in the meantime. Too much speculation already has been made about the plans of the committee."

Capital Surprised

WASHINGTON, Oct. 14.—Announcement by Senator James A. Reed in St. Louis today that the special Senate committee of which he is chairman will meet in Chicago next Monday to consider the stories of corruption in Indiana's political structure caused considerable surprise in the Capital today.

It had been understood by members of the Senate here and by political leaders generally that the Indiana situation would not be made the subject of inquiry by Reed's committee because of the local character of the charges.

Members of the committee are Senators Reed, Democrat, of Missouri; King, Democrat, of Utah; La Follette, Republican, of Wisconsin; McNary, Republican, of Oregon, and Goff (Republican, of West Virginia.

State President Percy L. Craig of New Castle gave a luncheon to directors, county presidents and state staff Thursday, which was attended by nearly everyone eligible. President Craig also presided at the morning and evening sessions.

Rev. Sam Maitland of New Castle has been appointed on the nomination committee which will present a list of the officers to be voted upon for the coming year. The convention is being held in Rajah Temple and is a wonderful success.

Public Schools Theme

(International News Service)

READING, Pa., Oct. 14.—The public schools and their activities were topics of discussion today before the 2,000 delegates to the 64th annual convention of the State Sabbath School Association, in session here.

Dean Walter S. Athearn of Boston University was the chief speaker at the morning session. His subject was "Protestantism's Contribution to Character-Building in a Democracy". A number of state school officials spoke during the session, reviewing the activities of the schools during the past year.

Teacher training graduates and students were to be entertained at a noon luncheon.

This evening members of the world pilgrims association will hold a reunion and dinner. The pilgrims are those who have attended a world's Sunday school convention either in America or abroad. H. C. Heckerman of Bedford will preside at this reunion.

Among the speakers at the group meetings tonight will be Dr. H. Shelton Smith of Chicago; the Rev. C. A. Hauser of Philadelphia; the Rev. John W. Elliott of Philadelphia, and Bishop William M. Bell of Harrisburg.

Election of officers and selection of the convention city for 1927 will take place Friday morning, the last day of the convention. New Castle has made a strong bid for the 1927 convention.

More than 2,000 delegates are attending the convention.

ABOARD S. S. LEVIATHAN, Oct. 14.—Queen Marie of Roumania is suffering from a slight cold.

Although members of the queen's suite stated that the cold was insignificant they said that the queen wants to take no chances on arriving in the United States indisposed and for this reason she abandoned her plans for a morning swim and also refrained from exercise on the decks.

The queen lunched in the general dining room with Mrs. Woodrow Wilson, and the menu was of typical American food, with chicken a la Maryland as the piece de resistance.

The Iconoclasts were an Eastern sect of the 8th and 9th centuries, whose object was to prevent the worship and destroy religious images.

Wife Insulted By Group Of Men

A man named Dudder residing at 1211 Scioto street, registered a strong protest to the police last night, concerning the practice of men and boys congregating in front of a poolroom on Long avenue between South Jefferson street and Scioto street, as his wife passes by that place.

According to Mr. Dudder, these men and boys make offensive remarks and improper advances as his wife walks past them. It always happens in the day time.

On the most recent occasion, they made very insulting remarks to her. About two weeks ago, one of the men grabbed her arm and asked her where she was going.

The police authorities will put a stop to the practice at once and the offenders in the future will feel the full penalty of the law.

New Galilee Woman Is Hurt

KOPPEL, Oct. 14.—Mrs. Yoho of New Galilee, was seriously injured yesterday in an accident on the Koppel-New Galilee road when her auto which she was driving turned turtle off the road. She was unconscious when assistance reached her and was immediately brought to Koppel for medical attention necessary.

For life's highest honors...
only a diamond will do

At birth, the baby ring; at love's awakening the engagement solitaire; at marriage, the narrow jeweled band. Diamonds, *always*, for life's greatest events! But the popularity of the diamond does not stop here. Wherever love, affection, or esteem seeks its most perfect symbol, the diamond is always chosen. Here you may select from stones of the utmost purity, exquisitely cut, superbly mounted.

Child-birth

THOUSANDS of mothers for over three generations have praised Mother's Friend for relieving them of unnecessary pains during expectancy. "Everyone was surprised how well I got along," writes Mrs. Alfred E. Ammon, Muncie, Ind. "My pains disappeared after using Mother's Friend and I was sick only an hour and a half at baby's birth."

Mother's Friend is the formula of an eminent physician. It is made from a combination of highly refined oils and other wonderful ingredients and is for outward application. Mother's Friend aids the skin and muscles to expand more easily during the constant readjustment of expectancy, month after month, right up to childbirth.

Mother! Insist on Mother's Friend—the same as used by our mothers and grandmothers—don't wait—start using tonight—and meanwhile write Bradfield Regulator Co., Dept. 33, Atlanta, Ga., for free valuable booklet "Motherhood and the Coming Baby" (sent in plain envelope). It tells how Mother's Friend can help you during expectancy and at childbirth. This booklet also tells you many other things you want to know. "Mother's Friend" is sold by all druggists—*everywhere.*

Where else but a drugstore would such a request be made? You demand and receive many services from your druggist that no other merchant would bother with. You demand that he be open early and late to furnish you with the many things you need from hair pins to foot powder, from victrola needles to hot water bottles and he does it smilingly. You consider him your friend in sickness and in health and he appreciates your trust.

The many sidelines in a drugstore are necessary in order to pay expenses of keeping a professional pharmacist and a large stock of drugs to supply the occasional demand you have for medicine. It is to your interest to patronize a REGISTERED DRUGSTORE for the many things they offer for sale so that they may continue in business ready to serve you with their professional skill when sickness comes. Try the drugstore first.

MISS MARTINA QUINN WEDS DETROIT MAN

On Tuesday, October 12, Miss Martina Quinn, daughter of Mr. and Mrs. Wm. J. Quinn of this city, became the bride of Joseph E. Pack, son of Mr. and Mrs. John A. Pack, of Detroit, Mich., at a nuptial high mass sung by Rev. W. E. Cogley, S. J., in St. Catherine's Chapel which is reserved exclusively for students and alumni of the University of Detroit. The Jesuit choir, under the direction of D'Avignon Morell, sang Stewart's Twelfth Mass. At the Offertory the double quartette sang Ave Maria and at the Communion Cesar Frank's Panis Angelicus was rendered.

The bride had for her bridesmaid Miss Marie Tynan, a college classmate, and Mr. Pack's best man was his brother, Dr. Albert Pack.

A wedding breakfast for the bridal party and immediate family of the bride and groom was served at the Hotel Statler, after which Mr. and Mrs. Pack left for a trip to California and intermediate points of interest.

The bride is well known in New Castle, having received her elementary education in St. Mary's Parochiel School, this city, and her high school and college education at St. Mary's Monroe, Mich., from which institution she also graduated in music. From St. Mary's, Monroe, Miss Quinn received the Degree of A. B., and from the University of Detroit the Degree of A. M.

During the past four years Mrs. Pack has been a member of the faculty of the Board of Education at Detroit, having had the direction and management of the High School Orchestra at Southwestern High School.

The Groom was educated in the Parochial schools of Detroit and the University of Detroit High School and College. From the latter institution he received the Degrees of A. B. and L. L. B., and for the last eight years has been engaged in the practice of law in Detroit.

Upon their return Mr. and Mrs. Pack will reside in Detroit.

THE IDEAL CITIZEN

An ideal citizen is the one who sees clearly and ever something good in the city and never loses the opportunity to spread that good news abroad that others might derive the benefits therefrom, whose unselfishness prompts him to want others to share opportunities, health and pleasure which his home city offers.

Loyalty is the first requisite for the ideal citizen. The love for the place and his neighbors which dismisses the thought of self interest or policy and resolves itself into the knowledge of duty when he does all in his power to make the city a better place in which to live.

There are three distinct attitudes which a citizen may assume toward the place in which he lives, which furnishes him food, shelter and association for himself and family, to boost, to remain quiet or to knock.

The booster is that ideal citizen who is never forgetful of the obligations which is due the home city. He is ever found at the front when any movement is launched which might tend to the advancement of the interest of the city. While others see darkly, to him good is visible at all times.

The quiet citizen is satisfied to let the neighbor do the work and content to lull the city asleep and let it rest.

The knocker is the man who is without a country. There is no room for him anywhere, his presence dampens the enthusiasm of every man or group of men who unfortunately come in contact with him. Having no faith in his own ability to go forward, he naturally lacks faith in his home city to do so.

You have the chance to belong to either of the three classes. If you are a booster, your neighbor knows it well and will boost you. If you are aligned with the quiet class, you will not be regarded one way or the other, for the man who selects to steer in the middle of the stream, gets no support from either side. If unfortunately you are a knocker, get ready to be knocked, for eventually it is coming to you. As you give, so will it be meted out to you.

New Castle would be an ideal city if only there were more real citizens. Let's have them.

BUS LINE AND HIGHWAY TAXES

APART from issues over the Public Service Commission, Governor Pinchot's disapproval of charters for the railroads to operate bus lines has a bearing on the highway tax problem. When the governor refuses to be party to granting to the Pennsylvania and Reading lines monopoly rights in the state highways, he distinguishes perhaps unconsciously between these petitioners and the bus companies already enjoying such privileges.

People who believe motor transportation should bear the cost of road maintenance in something more nearly proportionate to the damage which vehicles cause propose a better graduated system of automobile license fees discriminating between light and heavy cars of the pleasure type as well as in the case of trucks. In addition they would strengthen the gasoline tax, which has netted the state $13,000,000 this year.

The railroads pay the state eight mills on their gross receipts. If the revenues from their proposed motor service were included in this levy they would then be paying a tax for use of highways which rival automobile common carriers would not share. A measure to overcome the defect was recommended to the last legislature and the provisions of the gross receipts tax were extended to hydro-electric and water power companies, but the senate eliminated the section applying to the bus companies. If gasoline transportation were required to meet steam transportation at a parity in this respect, either in conjunction with a franchise tax or as a substitute for a franchise tax, public motor conveyance would begin to contribute its portion to the upkeep of public property.

These taxation problems may be met independently of the regulation now, or to be, exercised by the Public Service Commission.

The schoolboy, as the poet said, may have a shining face, but his sister probably carrier a powder puff.

The savage shouldn't be savage. He doesn't need to search through fourteen pockets to find something.

Just Folks

HOW TO BE CLEVER

Be clever and mock at all splendor.
Scorn virtue—that method is smart;
Be passion's unblushing defender.
Praise sin and they'll talk of your art.

Look at life from its sorriest angle.
Call all of the decencies trite;
Write of sex and the ancient triangle.
The critics will say you are bright.

Belittle whatever is holy,
At preachers be certain to sneer,
Despise all that's humble and lowly.
They'll shout: "A new artist is here!"

Make demons of monks and of friars,
Of judges make hypocrites base,
Paint your neighbors as self-serving liars.
They'll call you the light of the race.

Prove the murderer's right to his slaughter,
Praise vice—you will sell quick enough!
And if you've a son and a daughter
Be consistent—and teach them your stuff!

THE VERY FINEST—

Tolerance we ever show is tolerance toward the intolerant.
Charity we ever give is that from which we expect no reward.
Wealth is not what we own but what we can appreciate.
Art is the art of being friendly, without being subservient.
Religion is that which produces the most admirable character.
Success is that which brings no torture of conscience.
Humor is that in which all can join without humiliation.

When a flivver gets sick it can be just as sick as a sedan or a limousine.

When the National Radiator Company put up its plant at the eastern boundary of New Castle, it saw to it that enough land was at hand for future expansion. That plant was the old Robinson farm and there will be land enough for all kinds of expansion. See to it that when you put in a heating plant you get the local product.

He isn't really henpecked unless he pretends to enjoy the music his wife pretends to enjoy.

A lady in Pittsburgh testified in court that in her 22 years of married life the only time she had any happiness was when her husband was in the workhouse for 30 days. The husband also claimed he had a good time while in the works, so the judge gave him 60 days, and they will both enjoy themselves during that time.

A few days ago we were standing in front of The News office and we noticed a chap unloading cans about 18 inches square and we noticed a sign on them saying they were "Pretzels". We asked the man where in the world he found a market for such things now since no suds factory was pouring its amber fluid out in this vicinity. He told us that he was selling them to 60 some dealers in New Castle. After he gave us one we found out why they were such goodies. They are wonderful, and a box of them found people in The News office praising them. The factory where they are made is in Leetonia, O. They are hand-made and made in the old-fashioned German way by the Berg Company of that place. Every day we live we find out something new, even if it is sometimes old-fashioned stuff.

There were two nasty murders in Youngstown in one day a few days ago. That ought to have been worth a few newspaper extras, all right.

About 2,700 tickets for the community banquet are in the hands of the ticket sellers now, and it is feared the event will be oversold. Those who fail to get tickets are going to have a few regrets after it is all over. It is going to be more than food for the body.

It is said that when the young ladies in heathen lands went about without any clothes on no one paid any attention to them, but when skirts were put on them the young men chased after them all the time. In this country the young men chase after them, even if they just have a little skirt on them.

Mosquitoes have a fine sense of smell, but we don't think so much of their sense of taste, do you?

There are people who think churches should get into politics. If churches would resort to the same tactics that humans do in politics there would be no churches soon. The members of churches being in politics sometimes is bad enough. Deceit, lying and scandalizing would not connect up with anything that stands for decency.

If the Fourth of July were in the Republican platform the Democrats would not stand for it.

A New York man could not serve on a jury because his wife had put him into jail for non-support. That's another way of escaping jury duty—and maybe the jury duty is better off for it.

Old Jack the Clipper was way ahead of his day. If he were around now he would open a barber shop and make money legitimately instead of pulling the bones he did in the old days.

PROCRASTINATION

He made up his mind
To be helpful and kind—
"Beginning tomorrow," said he,
"Henceforth I shall strive
To be truly alive
And useful where e'er I may be."

He knew of a friend
And on him he'd attend
Who needed his help right away;
And so on the morrow
He'd lighten his sorrow—
Too busy to do it today.

Each he would plan,
Just as any one can,
The things that tomorrow he'd do;
But always today
There were things in the way
That first he must try to put through.

Each morning he'd stack,
Or would file on the rack
The letters he'd answer next day;
For why should he hurry,
Grow hot, fuss and worry?
Tomorrow is right on the way.

Tomorrow ne'er came
And each day 'twas the same,
Tomororw was still on the way;
Thus time sped along
With a lullaby song
From June to December and May.

Then death came one day
And they laid him away
Without sound of trumpet or drum.
The world might have known
And been quite proud to own
This chap had tomorrow e'er come.

Next Sunday is Mission Day in the churches in New Castle. Help Mr. Berquist out for his support during the coming year.

Two men were fined $10 each for attempting to play football in Pittsburgh. There are a lot of birds who ought to be fined even more than that for "attempting" to play football on week days.

A Pittsburgh bird, when arrested for stealing an automobile, claimed that when he saw a car he could not run he just took it and learned to run it. He will be a choof at the works for some time to come.

Before a girl is married to him, she says: "Please light it; I like the smell of a pipe". But afterwards!

Some men can't stand the wear and tear of the present age, but with the tailor it is different. He thrives on it.

You can still get some community banquet tickets at The News office. They are about all gone and there will be no more.

That New Wilmington bear must be a modern animal and likes night life, for if all reports are true, it is headed toward New Castle, where it can see and hear and enjoy more than the villages give. But until December 1st, when the season comes in, that bear will be hunting the man; after that the man can hunt the bear.

The Chicago officers move to check new gang war in that city, but they never seem to move fast enough. They are like the proverbial dog's tail, always behind.

Queen Marie is on the way here now, and by the time she gets to the United States there won't be a thing to detract from the publicity that she deserves. It isn't likely that the queen will visit New Castle, but there is lots to see if she does come. We'd like to show her the largest tin mill and also the Cathedral and several other big things the city has.

A new bridge will have to be erected over the Shenango river on the highway between Sharon and Greenville now. Big truck went through the old one. That is a sure way of getting a necessary improvement, but it can't be recommended only in case of emergency.

Shirkers and slackers should be condemned in peace times just as much as they are in war times.

TODAY'S STORYETTE

One of the features of an entertainment that was given for charity some time ago was a vocal selection by a woman. Midway in the audience a meek-looking little man listened attentively.

"That is the most atrocious singing I ever heard", remarked a woman to the meek little man. "I wonder who the vocalist is."

"She is my wife", was the startling rejoinder of the meek little man.

"Oh, I beg your pardon", responded the other, greatly flushed. "The fault may lie with the music, which is really barbarous. Have you any idea who composed it?"

"Yes, madam", replied the meek little man, "I did".

This is the bargain age and at no time are women so eager to take advantage of reductions as now. That's true, even their ages are bargains; many are 25, marked down from 35.

Anyway, the back seat of a Ford has disproved the old theory that a child's liver could be turned over.

That New York boxing commissioner who lost the fight for his city because he hung out for Harry Wills as the opponent of Jack Dempsey, after witnessing the poor spectacle and the rotten sportsmanship of Wills in his fight with Sharkey, ought to crawl in his hole and pull the hole in after him. He certainly made a monkey of himself.

Most women treat traffic lights as they do husbands. They pay slight attention to them, but the police are sometimes active enough to catch them.

The fact that Dan Moody, governor-elect of Texas, is only 33, ought to give the Democrats a hopeful candidate in the years to come when Al fades from the picture.

Two people were killed in the celebration at St. Louis over the winning of the world's series ball games. Sporting celebrations are just about as dangerous to the lives of people as gang wars.

The Bootleg Tong.
He Did Not Believe Them.
New-Old Kind of Death.
Mellon and Mussolini.

By ARTHUR BRISBANE
(Copyright, 1926, by N. Y. American, Inc.

We used to wonder at Chinese tongs, their murderous feuds, their unwillingness to enter courts, their Chinese home-made "justice" in this land.

Now the Chinese wonder at us, as our bootleggers—Chicago holding the championship—show how a tong should be run, for efficiency.

* * *

In the latest alcoholic tong exploit there figured two machine guns, public streets swept with bullets, two killed, three wounded. More killings will come within a week, the police say, for the O'Banion gang, having lost two men, will demand double blood pay.

* * *

While the bootleg tongs fight it out police cars dash through the street, catching nobody. No fault of the police. They cannot guess what bootlegger is preparing his machine gun for his enemies.

The bootleg barrage was laid down directly in front of the Holy Name cathedral and close to the home of Mr. Rockefeller's daughter—nothing lacking in romance or audacity.

Columbus day is over, and you could probably count on your fingers those in your circle that thought as much as two minutes about Columbus.

His achievement can be summed up in few words:

"He did not believe those that said it could not be done."

* * *

He ran the usual course, rendered service to the world, was put in jail for his pains, and as much as possible of the credit was taken by Isabella and others that deserved no credit. This continent was not even named for its discoverer.

* * *

Yes, others came here before Columbus, but that means nothing. A steam engine was exhibited more than 2,000 years ago at Alexandria. That does not hurt the inventor that makes the practical success.

Columbus was followed by practical success.

* * *

In the best known Japanese suicide, the gentleman opening the wall of his abdomen with a sharp knife, disembowels himself, showing no sign of pain. That takes courage.

* * *

Gichi Kitazawa of Tokio, disappointed in love, tried a new way, and ate himself to death. With his hard-hearted adorned one across the table from him, he deliberately stuffed himself with rice, curry eggs, pouring down whisky and a worse drink, sake. Soon he was unconscious and in a few hours dead.

* * *

Let us remember, for our good, that what Mr. Kitazawa did in a few hours, nine-tenths of us do in about a normal lifetime. Too much or wrong eating or both kill the great majority. Senator Copeland, who is also a doctor, says "half of what we eat keeps us alive, the other half keeps the doctors alive."

Secretary Mellon, whose management has cleared away seven thousand millions of our national debt, says Mussolini's government is no longer a one-man machine.

Mr. Mellon sees in Mussolini, with whom he has had long conversations, not merely "one of the world's most vigorous personalities, but a sound organization builder." Mr. Mellon has proved that he knows something about organization. Ask his business competitors.

He says "Mussolini's organization is sound and there should be time for him to build strongly. He is a young man yet."

* * *

Mr. Mellon added a parenthesis: "That is of course, if they stop throwing bombs at him."

That is the big if, but courage counts, even against bombs; it discourages and intimidates the bomb thrower and prolongs life. Mussolini has courage.

Dr. V. K. Wellington Koo, who has become acting Premier and Foreign Minister of the Peking Government, is well known to Americans. His education was received in the United States and he served for a time as the Chinese Ambassador at Washington. Dr. Koo won his doctorate degree at Columbia University, New York city, where he was a favorite pupil of the professors in the department of political science and government. He also was extremely popular with the student body, and was admired for his intellectual attainments and his oratorical powers. Dr. Koo began his public career as secretary to the President of China. He was appointed Minister to Mexico, later to the United States and was then transferred to the post in London. In 1921 he returned to Washington as a representative of China at the arms conference.

Dr. Crane's Editorial

CARDIAC NEUTRALITY

The reason people are nonentities, the reason sermons are wishy-washy, the reason articles are limp tailed, the reason performances on the stage are punchless—are all one and the same; namely:

Cardiac neutrality.

The heart is indifferent. It isn't a life and death proposition at all. It is just another sermon, another article, another show.

Said Trollope:

"In my first novel I had a story to tell; afterwards I had to tell a story."

In most books the author seems to be "having to tell a story." The heart isn't there. The fire of Dickens and Hugo is absent.

Why?

Because the subject isn't one that means anything to the writer. It is nothing he would fight for. It is only the frame-work on which to hang the brilliance of his style or the scintillation of his wit.

Those who are marking time and filling space are "having to write a story." They are doing nothing they can throw their whole hearts into doing, nothing they can get dead in earnest about.

So they are indifferent, lukewarm, half-hearted, lackadaisical.

"One strong heart will make a thousand quail." The reason is that the thousand don't care. Their hearts are neutral. They lack the iron of conviction.

One stumbling speaker who is sincere and deadly in earnest can move a group that remains cold to all the polished arts of rhetoric from a speaker whose heart is hollow.

If one subway car full of common, everyday men and women got so in earnest about any subject that they would all give their lives for the cause if necessary, that handful of people could move the whole city of New York.

But only at rare intervals in history have that number of people got that much in earnest about anything at one time.

As a usual thing it is only the rare individual who is not numbered among those whose hearts are neutral.

Bible Thought For Today

THE LORD'S WAYS — "The Lord maketh poor, and maketh rich; he bringeth low and lifteth up." I Sam. 2:7.

POEMS I LOVE

BY CHARLES HANSON TOWNE

"Remember," by Christina Rossetti.

The late Margaret E. Sangster said that Christina Rossetti was her favorite woman poet, placing her even higher than Mrs. Browning. Certain of her poems—indeed almost all of them—bear the impress of genius; and the sadness that runs through them like a gray thread reveals her deeply contemplative nature. She was the sister of Daniel Gabriel Rossetti. She sang much of the sorrow and bitterness of life; but hers was by no means a hopeless and helpless pessimism. There is a note of exaltation in all her songs.

Remember me when I am gone away,
Gone far away into the silent land;
When you can no more hold me by the hand,
Nor I half turn to go, yet turning stay.
Remember me when no more day by day
You tell me of our future that you planned:
Only remember me; you understand
It will be late to counsel then or pray.

Yet if you should forget me for a while
And afterwards remember, do not grieve:
For if the darkness and corruption leave
A vestige of the thoughts that once I had,
Better by far you should forget and smile
Than that you should remember and be sad.

The World AND THE Mud Puddles

A GREAT CABINET OFFICER

The Secretary of the Treasury, Andrew W. Mellon, is known as a man of few words. He is also thought by the majority of the citizens of the Republic to be only interested in dollars. Speaking so seldom, what he has to say on any subject should be very interesting. It is also worth while to call attention here to the fact that Mr. Mellon is interested in other things than dollars. Addressing the Fifth Annual Conference of the International Union against Tuberculosis at its opening session in Washington, on September 30th, on behalf of the President, the Secretary spoke as follows:

"On behalf of the President of the United States, as a member of his Cabinet responsible for the Public Health Service of this country and as a citizen interested in the welfare of humanity, it gives me great pleasure to welcome to our country and to its capital these distinguished leaders from other countries who have come to join their colleagues here for a common purpose—to confer upon the best methods for continuing war against a disease which largely due to your efforts in the past, has fallen from its sinister place of "Captain of the Men of Death", but which is still the third greatest cause of death, and which still destroys more lives during that productive period from 15 to 45 than the other four principal causes of death combined.

"I recall with pleasure that the interest of our Government in this problem was shown during your International Congress which met here in 1908 by President Theodore Roosevelt who addressed the conference and was its President, and by one of my predecessors, Secretary Cortelyou, who opened the conference on behalf of the President.

"That this appreciation has not diminished is evidenced by the existence of hospitals for the tubercular beneficiaries of our Army, Navy and Public Health Service, and by the splendid hospitals which have been provided for the care of our ex-service men. That the people of our country have been awakened to the importance of tuberculosis is evidenced by the institutions which our local and State governments have provided and by the splendid support which they have given the National Tuberculosis Association, to whose intelligent and devoted efforts, under the inspiration of such great leaders as Osler, Biggs and Trudeau, and many who are before me, has been in great measure due our appreciation of tuberculosis as a national public health problem.

"The success of these efforts has been shown by the reduction of the death rate of 201.9 per hundred thousand from tuberculosis in 1900 to 84.8 in 1924 and 81.8 in 1925, in our 36 registration States. Had the death rate of 1900 continued, 189,000 persons would have died from this terrible disease in 1925, fnstead of 76,605. Surely this saving each year of over 112,000 of our men, women and children, in addition to the accompanying sorrow, sickness and loss of efficiency, has been worth more than all of the devoted intelligent effort and resources expended. I am glad that this association is working in intimate co-operation with our Public Health Laboratory in the study of this disease.

"It must seem but yesterday to many here since von Schrotter of Germany introduced the resolution at the Congress in Paris in 1898 which led to the organization of a permanent international body, and since the first congress to consider from an international standpoint the campaign against tuberculosis was convened.

"As we look back across the intervening years and despite the World War with the stupendous loss of lives, disability and poverty which it entailed in addition to diverting the human and financial resources of the world from conservation of human lives to their destruction and which disrupted all plans of sanitation, you have good reason to take heart and gird your loins for future triumphs. It is true, as our statistically inclined friends in the League of Nations and elsewhere have pointed out, that statistics from our several countries are not comparable, but it takes no statistician nor indeed more than average intelligent layman to appreciate the great work which has been accomplished, not only in the reduction of illness and deaths from the disease against which our efforts were primarily directed for the fight against tuberculosis like a light set upon a hill, has shed its ray of beneficience throughout the world, and in all of the dark corners of disease.

"I venture to say that no great movement has had a more far-reaching effect upon the welfare and happiness of the human race in those countries in which its efforts have been exerted than the organized fights against tuberculosis. Its influence has been seen in better housing and hospital facilities for the poor, in shorter hours of labor and better working conditions for the laborer, in more inteligent expenditure of money in nutrition and education; and indeed the great uplifting of the masses during our generatioin has been in no small degree the result, consciously or unconsciously, of the efforts of such men as yourselves, and of the public whose energies have been directed along wise channels by you.

"Great armies, indeed governments, depend for their success in these days not so much upon the personality and prestige of some individual leader for the complexities of civilization and their results have made this well nigh impossible. National and international success in any effort now depends more largely upon the united and co-ordinated efforts of individuals bound together with a common purpose, and in this sense I look upon this Congress as the general staff

Comfort Station Not Yet Discussed

City council has held no conference with officials of the Pennsylvania-Ohio Electric Company in regard to a comfort station on the Diamond, according to Councilman Louis Genkinger.

Several months ago Manager of Railways R. N. Graham, in meeting with council on other matters, was asked as to the company's willingness to discuss erection of a comfort station.

He said that officials would be glad to do so but so far there has been no conference, but indications are it will be taken up before spring.

The pearl shell industry is of considerable importance to Arkansas, as it is estimated that the average annual output of commercial shells is 12,230,367 pounds, sufficient to make about 733,000,000 pearl buttons. The value of the yearly output in the rough state is approximately a quarter of a million dollars.

Practical experiments in factories and mercantile establishments show that under controlled conditions a spell of work broken by a short rest is more effective than an unbroken spell of the same length.

Beware Warning Signals of Failing Glandular System

Science Now Knows That Tired, Weak, Worn-Out Conditions Often Caused by Glandular Insufficiency.

THOUSANDS of men and women are weak, worn-out, run down and exhausted, losing strength and losing weight, and fail to recognize the cause, which is often glandular insufficiency, or a weakened glandular system.

Glands exert a remarkable influence on normal health and vigor, according to eminent medical authorities, and when the glands fail to function, health fails.

Science now points a new way to vigorous health and vitality—glandular treatment. Now eminent physicians of this country and Europe prescribe glandular treatment for glandular insufficiency. Remarkable benefits result often in a short time.

If you are weak-worn-out and run down, seek the thrill of vigorous health and vitality this new way.

Glandogen, the new scientific gland tonic, provides a simple method of taking glandular treatment. Glandogen is prepared in convenient tablet form, for men and for women. Accept no substitutes. Insist on genuine Glandogen, the original gland tonic. Love & Megown Drug Co.

of an allied army which has already accomplished great results, which has driven its common enemy from one battlefield to another, which has indeed won not only many battles, but many campaigns.

"The enemy is not yet vanquished, however, and our past victories will, I am sure, serve to create in you and in those whom you direct, that eclat and high state of morale which is so essential to final victory. As a layman, but one who is deeply interested in such work, I feel that this ultimate victory will be achieved by not only continuing and indeed increasing our efforts toward educating the public, providing them with safe milk and adequate hospital facilities and impressing upon them the importance of early diagnosis and treatment, but in addition by continuing and increasing research for the solution of those fundamental factors in the causation and treatment of tuberculosis, knowledge of which is essential for its eradication.

"In this age of post-war unrest and strife it is heartening and inspiring to meet such a group bent upon a common purpose which means so much to humanity. I am confident that the exchange of views and knowledge which will follow the gathering together of so many medical men of ability and devotion from all parts of the world will result in an untold benefit to the human race.

"I again welcome you and wish you God-speed and success."

Rub Gently and Upward Toward the Heart as Blood in Veins Flows That Way.

Many people have become despondent because they have been led to believe that there is no remedy that will reduce swollen veins and bunches.

If you will get a two-ounce original bottle of Moone's Emerald Oil (full strength) at any first-class drug store and apply it night and morning as directed you will quickly notice an improvement which will continue until the veins and bunches are reduced to normal.

Moone's Emerald Oil is a harmless, yet most powerful germicide and two ounces last a very long time. Indeed, so powerful is Emerald Oil that old chronic cases of Piles are often entirely absorbed and anyone who is disappointed with its use can have their money refunded. Good Store Lighting Satisfies Customers

Color, finish and quality of merchandise can be seen only where the store lighting is correct. Thus good lighting means thoroughly satisfied customers, for they see just what they are getting.

Good lighting turns the "shopper" into the "buyer" and the casual buyer into a regular customer.

Does your store lighting give your store and your merchandise a fair chance?

Our illuminating engineers have developed a plan that places GOOD STORE LIGHTING easily within the reach of every merchant, whether his store is large or small.

Full details of this plan are yours for the asking, without placing you under the slightest obligation.

Labor Federation Conference Nears End Of Sessions

Many Important Subjects Up For Approval As Convention Moves To Close

By COLE E. MORGAN
International News Service Staff Correspondent

DETROIT, Oct. 14.—The American Federation of Labor today went into the final stages of its convention, expecting to conclude the annual session by tonight.

On today's program as major subjects were:

Approval of a political program for the coming year.

Report of committee on workers' education.

Final fragmentary cleanup of the executive council's report.

Report of the committee on international relations.

Election of officers.

Election of 1927 convention city.

Indications were that the convention would go to Los Angeles, though Sacramento, Calif., and Birmingham, Ala., were contenders.

The present officers were to be re-elected without opposition.

A resolution opposing any participation in the affairs of the League of Nations, world court and international labor office was to be passed on, with a reiteration of non-adherence to these European tribunals a certainty.

Two Accidents Are Reported To Police

M. Davis of 837 Croton avenue reported to the police Wednesday that while his machine was being driven south on Croton avenue that a mahine parked in front of the Gibson barber shop started out without signal and the machines came together. Some damage was done.

Fred Peterson of 429 Shadyside reported Wednesday that while his truck was backed into the curb unloading lumber that a machine bearing Pennsylvania license 373-731 going east on Cherry street ran into his machine. Considerable damage was done.

Pear Salad Graham Crackers
Milk

Dinner.
Pork Chops Buttered Potatoes
Stewed Apples Endive Salad
Grape Pie Tea or Coffee.

TODAY'S RECIPES.

Griddle Cakes—Three cups flour one egg, milk, salt, two teaspoons baking powder. Break Egg into flour and beat; then add milk until batter is the right consistency then salt and baking. powder the last thing before frying. Corn cut from the cob may be added to griddle cakes or whole wheat, graham flour or bran may be used in place of some of the flour.

Grape Pie—Wash and stem a small basket of grapes, separate pulp from skins. Boil pulp 15 minutes and strain to remove seeds. Mix with skins, boil ten more minutes then add two cups sugar Make a thickening of flour and water and add to grapes; let stand until just warm. Put in pie crust cover with top crust and bake. Cinnamon may be added for flavoring if desired.

Baked Beans. — Wash beans thoroughly and put them to soak in cold water over night. In the morning pour off the water put on fresh and let them come to a boil. Pour off, but on more fresh and let boil until the skins curl up when you blow on a few in a spoon. Put in baking dish, add one tablespoon moiasses, one teaspoon dry mustard, mixed with a little cold water, one teaspoon salt, one pint cooked strained tomatoes. Put one quarter pound of salt pork in with beans and bake slowly for three or four hours. The tomatoes may be left out if you do not care for them and water used in their place. Also if you care to season the beans more highly add half a botle of tomato catsup.

SUGGESTIONS.

When the walls in a room are plain and the fabrics plain particular attention should be paid to the texture of the material. When the material has a design, the patern will carry the fabric and it need not be as rich or luxurious in texture.

Inexpensive baking dishers are being shown in a number of different colors. They are so attractive that they can be taken directly from the oven and placed on the table—eliminating the necessity of having a silver casserole.

The window hangings for the room finished in the Italian Renaissance period or one of its many adaptations are generally made of filet laces in coarse patterns or casement cloth against glass. The overhangings are of damask in large patterns and very colorful.

TODAY'S RECIPES

Milk Toast—Put whole milk in saucepan to heat, add one tablespoon butter, one-quarter teaspoon salt, one-half teaspoon celery salt, a dash of pepper. Serve piping hot with fingers of toast.

Baked Apples—Pare seven apples, cut in halves and core; fill with walnuts and cinnamon drops and small piece of butter to each apple. Sprinkle with one tablespoon flour and one cup sugar; add one-quarter cup water; bake until done.

Baked Chicken With Mushrooms—Cut fowel in desired pieces, roll in flour, drop in a skillet of lard and butter to fry to a golden brown take out, put in roaster, pour over it one-half cup sweet milk; salt, pepper; put lid on and put in oven. Let steam for one and one-half hours; add one-half cup milk at a time whenever it is needed. Have mushrooms peeled. Twenty minutes before chicken is done put mushrooms over chicken, put back in oven; make thickening of two tablespoon flour and milk; take out chicken, scrape mushrooms off into gravy, add milk or water and thicken.

TIMELY RECIPES

Cucumber Slices—Peel and slice one quart of large cucumbers, add two small onions sliced thin, sprinkle with salt and let stand for three hours. Drain. To the above add one-half cup sugar, one cup strong vinegar, one teaspoon mixed spices(more if desired). Let cook for three minutes. Seal in jars.

Plum Conserve—Three pounds Damson plums, one and one-half pounds sugar, one pound seeded raisins, one orange, one lemon (juice only), one cupshelled pecans Slice the plumbs but do not pare them. Measure them after slicing and pitting. Slice the orange and extract the juice from the lemon. Add sugar and cook the mixture until it is thick and the fruit is transparent. Put the nuts in just before taking from the fire. Do not let them cook for any length of time in the mixture for it spoils the texture of the nuts and develops a disagreeable flavor. Pack the conserve in sterilized jars and seal. Spiced plums are good with cold meats.

TODAY'S RECIPES

Tongue a la Creole—Wash a beef tongue and put on to cook in hot water to cover. Peel; place in casserole with one cup of stock, one cup tomato soup or stewed tomatoes, a little catsup, one onion diced and seasoning. Bake half an hour or so and serve hot or cold.

Ham—Place a center slice of ham in a baking pan, rub brown sugar over top and stick a few cloves into it. Cover with milk, a quart if possible, and bake in a slow oven for two or three hours. Cover until the last half hour.

Chocolate Roll—Five eggs, separated, one cup powdered sugar, three tablespoons cocoa, one tablespoon flour, pinch of salt, one-eighth teaspoon vanilla, one pint whipping cream. Mix dry ingredients and fold into stiffly beaten whites of eggs. Add well beaten yolks. Spread into a shallow pan, very well greased, and bake in a hot oven ten minutes. Turn out on a towel sprinkled with powdered sugar and cover with damp towel. Cool, spread with sweetened whipped cream, roll and sprinkle with powdered sugar. This cake does not break even when it isn't rolled for several hours.

SUGGESTIONS

A delicious pear conserve is made by using four pounds of pears, chopped, two pounds of sugar, one teaspoon of vinegar, two oranges (juice and grated rind), and when conserve is about done add one large can of grated pineapple. This recipe makes approximately five quarts of conserve.

Waxed flowers can be easily cleaned by dipping them, one at a time, in a warm suds made by a mild soap flake and gently swishing them about, being careful not to let them remain in the water too long as it will soften the wax. Sweet peas especially, and any small flowers will look as fresh as new.

To keep greens, such as water cress, lettuce and celery, or any fresh vegetable crisp for a day pull apart the leaves, wash them well and put them into bags made of cheesecloth and place in the icebox.

I will not be responsible for any debts incurred upon me, other than those personally contracted.

I find it *safer* to wash clothes
—this easy way

I USED to have to rub and scrub cuffs, collars, hems, etc., to get them clean and white. No wonder they became frayed and threadbare so quickly.

But no more hard rubbing for me now. I just *soak* my week's wash in Rinso suds—then rinse—and my washing is done—*safely*. Clothes get whiter and brighter than ever before.

No washboard rubbing—even the most soiled spots become snowy with a rub or two between the fingers.

Rinso makes the water wonderfully soft and sudsy. It saves my hands, too. They never get red and washworn now.

FOR FORTY YEARS AMERICA'S FINEST MATTRESS

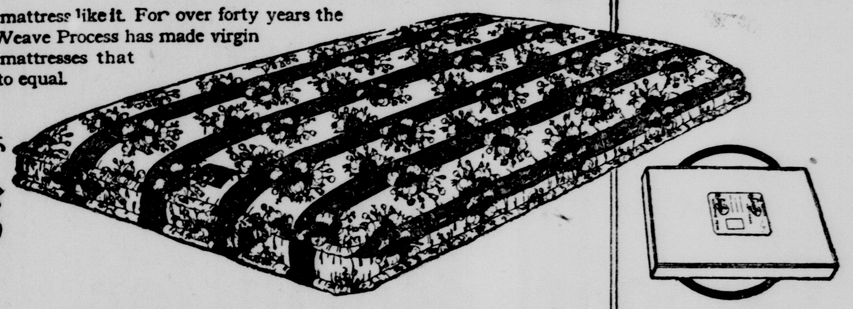
The Sealy TUFTLESS MATTRESS

"Like Sleeping On A Giant Pillow"

This magic mattress is tuftless, like a giant pillow. It needs no tufts. The same process that creates the Sealy's wonder comfort permanently knits staple cotton fibres into one giant batt that cannot and will never separate.

$50

There is no other mattress like it. For over forty years the Sealy Patented Air Weave Process has made virgin staple cotton into mattresses that none have been able to equal.



The proper bed-companion for the famous Sealy Tuftless mattress, if you want the maximum of sleep comfort. A wonderfully constructed double deck spring.

The pillowy comfort of the Sealy Tuftless relaxes every muscle in your body—rests your nerves and restores your energy. A real pillow for your body. Before you invest in sleeping equipment, investigate the Sealy Tuftless. The long years of service it will give you makes it the most economical mattress you can buy.

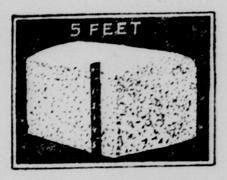
The Sealy PATENTED AIR WEAVE PROCESS.

Virgin sun-pure, staple cotton is MIXED WITH AIR and interwoven by special compressed air machines in such a manner that the fibres can never become separated nor lose their resiliency.



A giant, buoyant batt of virgin staple cotton, 5 feet high, is pressed into every Sealy Tuftless. It can never lose its shape or resiliency.

Every genuine Sealy Tuftless bears this black and gold label. There is no substitute for a Sealy. Look for the label.

A section from a Sealy in use twenty-five years. Still sensitive to the weight of a watch.

Every Sealy Tuftless is packed in an individual, sanitary carton, and is untouched by hands from factory to you.

SAYS PEACH ROT IS NOT SERIOUS

Many people have become alarmed over the rotting of the peaches this year and are doubtful about them next season. W. A. McCubbin, chief pathologist of the bureau of plant industry, says: "Peach growers need not be concerned about this rot. There is very little of the brown rot present. The prevalent rot is of the bread-mold type and its abundance this year is due to the lack of sugar and excessive amount of moisture in the peaches. This kind of rot is a temporary thing and is not likely to affect the crop next year because it does not carry over the winter like the brown rot.

STOLEN AUTOMOBILES REPORTED RECOVERED

Two automobiles reported to the local police as being stolen here in the past few days have been recovered. Charles Venditto of 803 Moravia street, who reported his Hudson coach stolen on Sunday has recovered his machine acording to the report at the police station.

The Ford roadster of Lester Plotts of 820 1-2 Morton street, was found abandoned at Edenburg and has been recovered by the owner.

Children love this breakfast
—with the rich whole grain flavor

What a satisfaction it is to see children enjoying a bowl of Quick Mother's Oats and milk! They love it so—and it is so good for them.

Its rich flavor comes from the natural whole grain. None of the indispensable parts are removed, as often happens. With milk it provides minerals and vitamins now known to be necessary for sound, perfect development, as well as a liberal contribution of the protein so vital to growth.

Give your growing children this breakfast child health specialists approve—and see how eagerly they'll eat it up and ask for more.

Non-Support Cases Feature

Record Number To Come Before Mercer County Court Next Week

OTHER NEWS NOTES OF MERCER COUNTY

(Special To The News)

MERCER, Pa., Oct. 14.—The October criminal sessions in Mercer county which opens on October 18 with a grand jury proceedings will be featured by a new record for the county in non-support cases numbering 17, stated by District Attorney L. R. Rickard to be the largest number ever listed for one term. The number is also prophetic of the domestic dissention among county residents. There are 137 cases listed for hearing on the transcript docket. Of this number 40 have already been disposed of by plea and sentence. Mr. Rickard announces in his possession 15 pleas to charges docketed that will be disposed of next Monday and Tuesday when court convenes. It is expected that the cases noted above will reduce the trial list that goes to the grand jury to 50 cases.

There will be two courts in session to dispose of the list which is up for hearing the week of October 25. The only action of any great importance will be that of commonwealth vs. Frank White of Farrell where murder and manslaughter will be charged. The killing of Tony Rotell of that city in a quarrel of recent date is alleged by the commonwealth.

C. F. Owsley, architect, was in Mercer yesterday making inspection of the work at the court house and jail that is being done under his supervision. Mr. Owsley is the architect who sketched the drawings for the court house here, completed in 1909.

The repair of the building this summer finds Mr. Owsley again in charge. Work progressing satisfactorily is the report. Contractors were told to speed it up that cold weather might find work enclosed. The heating plant at the jail will be given minor repairs to put it in shape. Bids on the electric wiring of the jail will be asked for soon.

The football team of Mercer high school is carded to play Harrisville high on next Friday. The game takes place at Harrisville. Games have already been played with the Fredonia vocational team, the teams splitting even on the games with a third game yet to play.

District Attorney L. R. Rickard will attend a state convention of the county prosecutors of Pennsylvania held at Philadelphia, opening October 28. As the date occurs during the week of trial sessions of the October term Mr. Rickard, to be able to attend, expects to arrange the calendar that cases requiring his attention will be disposed of the first of the week.

C. S. Hinkley of the Mercer Rod & Gun club has been advised by officials of the U. S. bureau of fisheries that black bass will be shipped the local club either in July or October of 1927. They will be notified when to expect the shipments of fish.

The fish are to stock the Shenango river, Otter and Neshannock creeks, the sportsmen state. Due to the demand made on the bureau this summer they were unable to fill the order of the Mercer club. As the stocking of three streams will require the shipment of no small number of fish if the shipment should reach a carload it would not be surprising, sportsmen state.

That the 1927 legislature of Pennsylvania will be asked to give to the improved roads and bridges of Pennsylvania protection against the overloaded trucks that are destroying both. Tonnage that would compare favorably with that in a box car is loaded on trucks with engine equipment that would haul anything.

This is the opinion of County Commissioner F. P. Minner, who has charge of the county improved roads and program. Neither the bridges nor the roads are built to stand the weight of the heavy vans and as a result no amount of license fee that could be charged would compensate the state or county for the repairs that must be kept up, say road men. The county had an experience this week with a truck all but going through the Clarksville bridge. When it is repaired it will be open for auto traffic only.

Fall Fashion Review of Welworth Frocks

Short, Elbow and Long Sleeves

A rare featuring of good taste and exquisite lines created by expert designers of fashions for women.

We Take Great Pride in offering this wondrous assortment of lovely dresses at $2.00.

Never in the history of our store have we been quite so fortunate as we are in being able to offer our trade these fresh, beautiful garments at our very remarkable price.

Youthful Models

These models were all designed to meet the marked tendency for handsome stylish dresses in youthful lines, and there is not a garment in this group which will not appeal to the young miss—the comely matron or the stout woman. They possess beauty and individuality, indicating what the smart woman will wear.

New Fabrics
New Patterns

The dresses are all developed in the very latest fabrics—sturdy and long wearing—in many new designs. You will find fancy mercerized weaves and the prettiest of new developments in various prints of fine quality.

The colors are those which fashion favors, new shades and groupings of shades in colors which withstand sun and laundering.

Remember! We alone enjoy the privilege of featuring these remarkable values, "Welworths" are confined exclusively to our store for this community.

Sizes for the Miss

Realizing what is necessary to completely satisfy the young Miss, the designers have provided models specially styled and sized so that she can select just what she needs and wants.

Slenderizing Stout Models

To the stout woman who experiences difficulty in obtaining models in keeping with her discerning idea of style, as well as meeting her particular size requirement, we suggest these "Welworths." They will win you over permanently.

"Welworth" Dresses

need no introduction to our lady friends and patrons, but these new developments at $2.00 are an innovation never before thought possible except in much higher priced garments.

These "Welworths" meet every woman's demand for smart stylish dresses that are distinctive and exceptionally beautiful, and yet priced far below the figure suggested by their quality and unusual attractiveness.

THIS STARTLING PRICE is the result of group buying by thousands of stores in enormous quantities. These many stores co-operating with us, purchased the entire available output of these models and it will not be possible for us to obtain any more of them.

TWO WONDERFUL MEETINGS

Dr. G. A. Leichliter, Buffalo, N. Y.

Sunday Afternoon And Evening, October 17

First Presbyterian Church

Peter Quartel, Dayton, O.

Afternoon Mass Meeting Beginning at 3:00 O'clock

Evening Mass Meeting Beginning at 7:30 O'clock

A day of spiritual feasting, of religious recreation.

For every creed, for every man and woman in New Castle.

Dr. Leichliter will be the main speaker at the meetings. In addition there will be short talks by nationally known mission men, whose stories of their experience will grip you.

For the afternoon mass meeting a musical treat is waiting for you. The Apollo Club, comprising 25 male voices will sing under the direction of Richard E. Johns, with Miss Marie Snyder at the piano. Dr. Leichliter and Peter Quartel will be heard in some of those duets which have won them a place in the hearts of New Castle men and women.

There is going to be a crowd. Get in early and get a seat.

IT'S RESCUE MISSION DAY

Expect To Fill Chest To Top

Over $100,000 Will Be Raised For Local Charities This Year

TEN ORGANIZATIONS SHARE IN BENEFITS

Two years ago New Castle made a decision. It was that the people of the city were beginning to weary of so many drives for funds. One month one organization had a drive for maintenance funds, the next, somebody else, and so it went during the year.

Those men and women who were public-spirited enough to bear the burden of the drives began to get harness weary, and the very mention of another drive had them shying.

Then the Community Chest

After much deliberation the Community Chest idea was decided upon and ten organizations were grouped under one head. It meant the combining of ten drives into one, an efficient supervision of the spending of money and a saving in the overhead expense of the drives.

The first year the Community Chest idea was projected it was an experiment. The money asked for was not all raised, but the directors of the Community Chest felt that the results were satisfactory enough to warrant trying it again.

Last year it was used again and the response was more spontaneous and generous. It has taken the two years to get the idea across, but by now New Castle is sold on Community Chest.

The ten organizations in the Community Chest are the Almira Home, Associated Charities, American Red Cross, Boy Scouts, Margaret Henry Home, New Castle Hospital, Salvation Army, Shenango Valley Hospital, Y. M. C. A., Y. W. C. A.

The Community Chest needs $102,182 this year. A large amount of money in the aggregate, but divided up is just what the organizations would have asked for as separate entities. And the one drive saves the expense of ten drives.

MACHINES IN COLLISION.

C. Rodgers of R. D. No. 9 reported to the police Wednesday that while going west on North street at Mill street that his machine was in a collision with the machine of Ralph Kellar, which was being driven in the same direction.

Chinese fighters are developing. It now takes four dozen British sailors to subdue a division of them.

FEW HUNTERS GET LICENSES

Number Preparing To Hunt In Lawrence County Below Usual Quota

While in the month of September, the indications were that there would be a record number of hunting licenses issued in Lawrence county, there has been a very decided slump in the present month, with the result that the number issued to date, according to County Treasurer David E. Nessle, is more than five hundred short of the number that had been issued at the same time last year.

And in spite of the fact that the hunting season for practically all small game opens the first of November and for a short period of 30 days in most instances, there is no rush at the present time for the licenses to hunt.

It would be well for those expecting to hunt this fall, to get their licenses at once and avoid the rush that there will be at the opening of the season.

To date there have been but 1,500 resident and forty-one non-resident licenses issued here. Last year the number of licenses issued here reached the record total of 6,797. It will take a great rush on the part of the hunters to bring the number issued this year up to that total.

Girls Of State Need Education Say Club Members

(International News Service)

WILLIAMSPORT, Pa., Oct. 14.—Modern youth is praiseworthy and to be "envied" but the state is not adequately caring for the education of its girls, was the general opinion today of the delegates to the state federation of Pennsylvania women in session here.

Speakers forgot their time schedules in sounding their approval of modern youth and the ball room of the Lycoming hotel where the 1000 delegates are meeting resounded with murmurs of approval as the young people of today were classed as "the most reliable, self-reliant generation of youth this world has seen".

Tales of young people and their toting of hip flasks were classed as "merely conversational myth".

Evangelist Jones From Oklahoma At Nazarene Church

Will Conduct Special Evangelistic Services For Three Weeks In This City

REV. LUM JONES

Evangelist Lum Jones of Ada, Okla., will conduct special revival services in the Church of the Nazarene on West Falls street beginning Friday evening, October 15, and continuing until October 31.

Services will be held each evening at 7:30 except Saturday evening. Services on Sunday at 10:45 a. m. and 7:30 p. m. Rev. Jones will preach at all of these meetings. Rev. Rowe, the local pastor, will assist in leading the singing, accompanied with his trombone. He will also arrange for special solo work.

Rev. Jones is a very successful evangelist, having traveled and preached through all the states and in Canada. His messages are unique and original and have a peculiar style unknown to most preaching. He was in New Castle about a year ago and preached in the Nazarene church where he made many friends.

National Day Of Rededication At Trinity Church

Women Of The Parish Will Observe Special Day With Appropriate Services, Friday

At the meeting of the Women's Auxiliary to the National Council of the Episcopal church held in Meadville in the parish house of Christ church yesterday it was announced that tomorrow, Friday, the 10th, is a National Day of Rededication to the service of Christ for the women of the church.

Due to an unexpected delay word of this had not been sent to New Castle before. But he delegation from Trinity church consisting of Mrs. D. C. Lindley, Mrs. R. M. Garland, Mrs. H. J. Clark, Mrs. R. B. Davenport, Mrs. W. J. Eroe, Sr., Mrs. F. E. Sowersby, Miss M. C. Shaddick, Mrs. C. B. Randall, Mrs. Wm. Davis, Mrs. F. A. Fowler and Mrs. P. C. Pearson decided to keep the day just the same because it is to be observed not only in America but in all of the foreign mission fields. Therfore Trinity church will be open and heated all day for private prayer and communion with God.

At 9:30 a. m. a service will be held to which all women of the parish are asked to come. There will be a short devotional address, special prayers suitable for the occasion and the offering of the Holy Sacrifice.

As the Reverend G. A. Golding is away on his vacation the women of St. Andrew's and St. Luke's, Ellwood City are invited.

Girl Is Killed In Auto Crash

(International News Service)

LEWISTOWN, Pa., Oct. 14.—An automobile accident on the William Penn highway near Mapleton in which one girl was killed and another seriously injured was to be investigated today by Mifflin county Coroner W. A. Barr.

Alice May Albright, 18, was killed and Cecilia Harshberger, 18, both Burnham high school girls, was injured in the accident. The latter was taken to the Huntingdon hospital.

John Benner, 20, of Burnham, and Otto Frankhouse, 21, of Lewistown, companions of the girls, were slightly injured.

The car skidded from the road and turned over three times.

GIRL REPORTED AS MISSING FROM CITY

Miss Hazel Brown aged 16 was today reported to the police as having been missing from her home in the Y. W. C. A. since September 23. No report was made previously as it was thought she could be located. She is described as being five feet two inches tall, weighing 130 pounds and having dark hair and blue eyes. She has a scar on the right side of the neck. She was wearing a black hat and dress when last seen. The police are making every possible effort to locate the missing girl

State Department Says Locusts Due Next Fall

Pennsylvania has a promising future in crops, according to the Pennsylvania department of agriculture at Harrisburg, the only danger being the fact that the locusts are coming to this state. However they will not be present in all parts of the state because of their coming in two broods, one year apart. The first brood will appear in 1927 in Adams, Franklin and Cumberland counties, according to T. L. Guyton, chief entomologist, bureau of agriculture. The second and heavier brood will appear in 1928 in Berks, Bucks, Chester, Dauphin, Delaware, Lancaster, Lebanon, Lehigh, Montgomery, Northampton, Philadelphia, Pike, Po[illegible], Schuylkill and Wyoming counties.

Mr. Guyton says: "It will be advisable for persons planting orchards in these counties either to delay the time of planting until after these years, or to make some provision for protecting the young trees during the period that the locusts are present."

Chest Workers To Meet Tonight

Captains And Division Chairmen To Assemble At Y. M. C. A.

PERSONNEL OF MORE TEAMS IS ANNOUNCED

The twenty-four captains and six division chairmen, who are leaders in the Community Chest campaign, will hold a special meeting tonight at the Y. M. C. A. in the banquet room at 7:30 o'clock.

At this meeting the advance selection of prospects will be made by each team captain. These selections are made now in order that the team workers may be given the prospects at the opening dinner on Tuesday night, October 19, in the First Christian church.

No solicitation will be made before Tuesday night except those now being made by the members of the executive committee who are calling upon certain citizens in the advance gift effort.

Other meetings of importance this week are the executive committee at 5 o'clock Thursday and Friday and 12 o'clock noon Saturday.

For the team workers in the women's division a meeting will be held in the Y. W. C. A. Friday afternoon at 4:30 o'clock.

For the team workers in the men's division a meeting will be held in the Y. M. C. A. banquet room at 7:30 o'clock Friday evening.

These two meetings are for coaching together with questions and answers.

Third Lecture On Italy Given By Dr. H. Griggs

Series Of Talks To Woman's Club Continued Wednesday At Highland Church

The theme of Dr. Griggs' third lecture in the Highland church on Wednesday afternoon under the auspices of the Woman's Club centered around the ancient city of Ravenna, during the period when she was capital of the Western Empire.

Dr. Griggs in the first and second of his lectures pictured in his characteristic and interesting manner, Italy from her beginning of world power, through her complicated and confused history to the very summit of her power, and then gradually the shadows began to fall, until in 402, the removal of her capital from Rome to Ravenna. It was at this point yesterday, began his lecture.

It was in this immediate period of history, that Theodosius, then ruler of the Eastern Empire was able to unite the Eastern and Western Empire. But was unable to long resist the terrible invasion of the Hun, and in 410, the most terrible invasion took place and the power of Theodosius began to lessen and shadows fall.

Here we come upon the romantic and interesting story of Placidia, daughter of the great Theodosius, who was united in marriage to Adolphus, King of the Goths, and became queen of the Gothic people, after the assassination of Adolphus at Barcelonia, she returned to her people and was married to a Roman. In 425 at the age of 6 her son became the emperor of the Western Empire, and ruled until 450. This reign was guided entirely by Placidia, daughter of Theodosius.

From 450 to 475 the Western Empire had nine different rulers. The shadows growing darker with each emperor and in 476 the lurid sunset and chaotic night came to the Western Empire.

About this time one of the greatest men who was to rule this empire was born in Vienna. And in the right year of his age was sent very reluctantly to Constantinople as a hostage or pledge of alliance, where he remained for 12 years.

Soon after his return he began a series of invasions upon Italy and in 507 became the ruler of Italy. Perhaps the most wonderful emperor in many ways that we know about, he had naturally the strength of a warrior and yet had gained Greek culture and knowledge of Roman law and order from his period of stay in Roman territory as a hostage.

He became a most just and humane ruler. He called himself "King of the Goths and Romans in Italy." His great aim was to recreate and reunite with the Christian faith, all Italy. His great dream if it had come true, would have saved the world from the dark night into which it subsequently fell.

The three reasons which caused his dream to crumble: 1st, the jealousy of the Eastern Empire. Second the antagonism of the Romans, and third the great reason was a difference in theology.

This great man died in 526 broken hearted.

In 546 Rome was thoroughly sacked by the Barbarian—and for 40 days not a human being remained in that city which had boasted of 1,000,000 inhabitants.

The slides showed many of the beautiful Mosaics still found in the original color, perfectly preserved until this day in all their solemnity and dignity.

One slide of particular interest was that of the tomb of Placidia, which she built in the form of the Greek cross, which is the mother of all Cruciform architecture.

And so we pass from this city of Ravenna, redolent of memories of many centuries, and find in it chapters of history that can be read in no other city of Ancient History.

Out of the ruins of ancient Rome rose the Medieval Rome about which we learn in Dr. Griggs' next lecture, on next Wednesday, at 2:30 in Highland church.

Perhaps the scientists are right. Man couldn't have become as mean as he is in a mere seven thousand years.

A Double Treatment for Colds

IT is an obstinate cold indeed that can resist the direct, double action of Vicks VapoRub. When it is rubbed over throat and chest at bedtime, Vicks acts in two ways at once:

(1) Direct to the inflamed air passages with its medicated vapors, released by the body heat; and

(2) Direct through the skin like an old-fashioned poultice, "drawing out" the tightness, soreness and pain.

Head or chest colds may easily sap your vitality and undermine your health. Don't neglect them.

Nerves Like Electric Shock

CRASH! — BANG! — are your nerves shocked by any and every little thing that goes wrong? Do you suffer from nerve pains—sharp, darting, tingling, pin-prick, creeping nerve pains? Then gain relief before your entire nervous system is undermined by dangerous neuritis and kindred nervous disorders.

Science has long worried over the alarming increase in nervous troubles among men and women. Vast research and experimental work has been done. At last an eminent World's physician announces a new discovery to bring relief in cases of nerve pain, neuritis, neuralgia and nervous disorders, and at the same time to give tone to the exhausted nerve cells; thus revitalizing the entire nervous system.

This prescription which is now compounded under the name of World's Tonic has been tested in thousands of nerve cases and found remarkably effective and beneficial. If you suffer from nerve trouble, overcome it with World's Tonic. It is guaranteed harmless and free from narcotics, "dope" and bromides. Your druggist will recommend it. It is for sale at Paisley's, Smith's, McKee's Kut Rate and Eckard's of New Castle Inc., and all other first class drug stores.

What Are You Doing For Your Puny Child?

One Boy Gained 11 Pounds in 7 Weeks and Is Now Strong and Healthy

For weak, frail, under-developed children—and especially those that have rickets, and need a sure builder that promotes the growth of teeth and bones, Cod Liver Oil is the one medicine supreme—nothing helps like it.

But it is nasty and repulsive and evil smelling and nearly always upsets children's stomachs—so now up-to-date chemists advise McCoy's Cod Liver Oil Compound Tablets.

Children love them as they do candy, because they are sugar coated and easy to take. One boy gained 11½ pounds in seven weeks, and is now healthy and happy—thousands of other children have grown strong and robust.

Sixty tablets for 60 cents at McKee's Kut Rate Store, Love & Megown, Eckerd's of New Castle, Inc. and all druggists—but be sure and insist on McCoy's—the original and genuine.

Give them to the sickly, frail child for 30 days, and if they don't help—wonderfully, your druggist is authorized to hand you back the money you paid for them.

Check off the good old friends on your gift list and send them the one thing they will appreciate most——your portrait.

It will be a wonderful gift for the family too.

Call our studio today for a lunch hour appointment and avoid the December rush.

Multiplied Beauty —Perennial Youth

I found them in the ways I offer you

By Edna Wallace Hopper

These are the greatest of Edna Wallace Hopper's Aids. I consider them the best in existence, and after 40 years of searching I should know. Each combines a number of helps in one application.

White Youth Clay

This is a new-type clay, based on 20 years of scientific study. It is white, refined and dainty. It combines three clays with numerous other factors to bring maximum results. The crude and muddy clays you know are not at all like this.

White Youth Clay purges the skin of all that clogs and mars it. It draws out the causes of blackheads and blemishes. It brings the blood to the skin to nourish and revive it. The result is a rosy afterglow which amazes and delights. It combats all lines and wrinkles.

White Youth Clay will bring to any girl new beauty in 30 minutes, and women often seem to drop ten years. I urge you to learn what it means to you.

My Youth Creams

My Youth Cream combines a dozen of the best helps known to foster, feed and preserve the skin. These include products of both lemon and strawberry. Youth Cream comes in two types — cold cream and vanishing. One for night, the other for the day. My baby-like complexion shows one of the effects. You will be delighted with this cream.

Still a Girl

Mine is a grandmother's age, and my life has been spent in the limelight. Yet I am still a stage star, still a beauty, still a girl. The thousands who see me daily marvel at my youthful bloom. And countless young girls envy my hair and my complexion.

My mother took me as a girl in a world-search for beauty aids. The best we found then were produced by French experts. I became by their help a famous beauty, gained a glorious career. Since then I have made 34 trips to France to learn of her latest discoveries. They have preserved my beauty, kept my youth, as all who see me know.

Now I am placing these helps—the best I found—at every woman's call. All drug and toilet counters supply them in my name. Every girl and woman who desires may use exactly what I use, and at a modest cost. I am doing my best to bring to millions the benefits I gained.

My Facial Youth

Facial Youth is a liquid cleanser which French scientists gave me. Leading beauty experts the world over now advise and employ the formula, but they usually charge too much. So only a small percentage of women yet know this superlative help.

Facial Youth contains no animal, no vegetable fat. It cannot assimilate in any way with the skin. It simply cleans to the depths, then departs. All the dirt and grime, dead skin and clogging matter depart with it. You will never know what a clean skin means until you use Facial Youth. And no skin can keep lovely unless clean.

My Hair Youth

My hair is my greatest glory. It is thick and lustrous, far more luxuriant than 40 years ago. I have never had falling hair or dandruff, never a touch of gray. All that I owe to French hair experts whose best helps are embodied in my Hair Youth.

Hair Youth is concentrated. I apply it with an eyedropper directly to the scalp. There it combats the hardened oil and dandruff which stifle the hair roots. It tones and stimulates the scalp. My hair shows how hair can flourish when the scalp gets that attention. The first application will show how much you need it.

The coupon will bring you a liberal sample of any of my beauty helps. Check which you want and send it. Clip coupon now.

Denial Offered Mussolini Will Be Operated On

Italian Official Circles Brand Report False Premier To Go Under Knife

(International News Service)

ROME, Oct. 14.—Swiss reports, published in London, that Dr. Sauerbruch, a Bavarian surgeon is coming to Rome to perform an operation upon Premier Mussolini were denied in official circles today.

The Swiss reports stated that a consultation of physicians was to be held in Rome and that it was anticipated that Dr. Sauerbruch would operate upon the Italian premier.

For the past two years there have been recurring reports that Premier Mussolini would undergo an operation. These reports have been repeated ever since the premier suffered from a severe illness due to duodennal ulcers.

Italian physicians are understood to have advised Mussolini that he can not expect a complete cure unless he undergoes an operation, but the premier had been loath to take time from his governmental duties to undergo an operation.

New Course For Dental Students

Five-Year Dental Course Latest In Colleges; Classes Show Increase

OTTO H. KAHN STRONG FOR ART

By MILLER HOLLAND
International News Service Staff Correspondent

SAN FRANCISCO, Oct. 14.—From now on it's going to be a five years' grind for all dental students in the San Francisco College of Physicians and Surgeons.

The faculty has just decided that to keep up with modern progress it is going to spend five years on the tasks of making dentists, instead of four years, as in the past.

To compensate the student for the extra year, however, it was also decided to confer upon him the degree of Bachelor of Arts in addition to his Doctor of Dental Surgery diploma.

Sixty-one students, an increase of ten per cent over last year's freshman class, have been enrolled in the new five-year course, it was announced by Dr. Arthur R. McDowell, dean of the college.

Otto H. Kahn, nationally known financier, is strong for art.

Art, he says, is a virtual panacea for social and economical ills; art is wealth; it is a preventer of crime and a mighty influence in effecting better international relations.

These praises were sounded by Mr. Kahn here the other day when he gave a little talk before the Commonwealth club on the "Commercial Value of Culture."

From a commercial viewpoint, Kahn pointed out, art's value may be clearly seen in France, which has realized millions through its predominance in the artistic world.

Parents are blamed for their children's delinquency in the annual report just submitted to the Berkeley police department by Mrs. Elizabeth Anderson, only policewoman on the staff.

"Parents are fostering juvenile delinquency because they are too occupied with the thrills of a jazz life to teach their children the lessons of morality they were taught by their parents," Mrs. Anderson says. Then she goes on:

"Broken homes, bad environment, mentality lower than normal, mother employed, emotional stability, lack of proper home discipline, misunderstanding and bad companionship are the main causes of youth's revolt."

Modern medicine science may have to retrace its steps into ancient Egypt if it is to solve the riddle of cancer, according to Dr. Robert V. Dolbey, professor of surgery in the University of Cairo, member of the staff of Kasrel Doubara hospital, and a guest at the University of California.

Twentieth century civilization is held responsible by Dr. Dolbey for the ravages of cancer.

In Egypt, he said, cancer of the gastro-intestinal tract is virtually unknown among the peasantry—that is, so long as the peasant is content to live in the same house and partake of the same food eaten by the peasant of Rameses' time.

Dr. Dolbey said records had recently been discovered proving that medical science was highly developed in ancient Egypt.

These records, the doctor declared, should make Egypt the center of medical research. He called attention to a papyrus found in the tomb of King Tut which diagnosed his death as due to pleurisy.

POLICE OFFICERS FACE SUSPENSION

(International News Service)

PITTSBURGH, Oct. 14.—Police Lieutenants George Hook and Louis Leibold today faced 15-day suspension for failing to stop Sunday football games in their disaricts. After hearing their excuses the police trial board deemed them unsatisfactory and recommended the suspensions. Hook and Leibold were the first police officers officially censored in connection with Safety Director James M. Clark's Sunday football ban.

It's almost unanimous. The drys hated the old-fashioned liquor and the wets hate the new kind.

Discuss Service Pension Campaign In First Church

Ministers And Laymen From 27 Churches In Shenango Presbytery In Session This Evening

Ministers and laymen from the 27 churches in Shenango Presbytery will attend a dinner to be given here this evening at the First Presbyterian church to mark the opening of the Service Pension Plan campaign in this Presbytery. Robert A. McKinney, chairman of the Shenango Presbytery Laymen's committee will preside at the dinner. The laymen present will be the members of Mr. McKinney's committee and the chairmen and members of the laymen's committees of the various churches.

The quota assigned to Shenango Presbytery out of the $15,000,000 necessary to launch the new Pension Plan is $84,300. This money will be raised by church laymen's commitees working among the members of their congregations under the direction of Mr. McKinney's Presbyterial committee. Pledges to the Pension Plan fund may be paid over a five-year period.

Rev. William S. Holt, D. D., of Philadelphia, associate secretary of the Presbyterian Board of Ministerial Relief and Sustentation, will speak at the dinner. Dr. Holt will discuss the national aspects of the new pension plan, its value to the whole church and how it will increase the efficiency and raise the morale of the church's ministry.

Coincident with the start of this campaign similar drives are getting under way in all the Presbyteries of Pennsylvania, Maryland, Delaware, West Virginia and the District of Columbia. Each has been assigned a quota by the Laymen's committee and each campaign will last two weeks.

Hon. Peter Heenan, Minister of Labor in the new Canadian cabinet, is a locomotive engineer and a veteran trade unionist.

Missing Youth Calls Up Police Station To Find Out His Identity

Joseph A. Weiner, Missing Northwestern University Student, Found In Milwaukee

His Mind A Blank, Missing Freshman Recalls Having Played Football

(International News Service)

MILWAUKEE, Wis., Oct. 14.—"I think I'm missing—how can I tell you my name if I can't remember it?"

It was a plaintive, perplexed voice that came to Joseph Lebow over the telephone at central police station.

"I'm at a drug store somewhere," Lebow was told next.

"Get into a taxicab and tell the driver to take you to headquarters," Lebow directed.

The distracted youth did as directed, and in a few minutes the mystery of the disappearance of Joseph A. Wiener, Northwestern university student who vanished from Chicago October 7, was solved.

At central station the 18-year-old student, a strange mental fog enveloping him, described a faint glimmer of light in the darkness that had settled down on his memory.

"I must be missing," he insisted. "I don't know who I am, where I live, or how I got here," he cried, sinking down on a bench he began to sob.

He showed his ring, on it were the initials "J. W."

"I've been calling myself Bob Levy, but this morning something began to stir within me, and I know it's not my name.

"Then numbers went through my head—14-3-7, and then a word 'shift'. It came to me all of a sudden that I had been playing football. Where do you suppose it was? Your missing department must know."

And the missing department did know. On file at the station was a report of the disappearance of Joseph Wiener, freshman at Northwestern university, son of a wealthy Michigan City, Ind., merchant. On the printed form was a photograph. The youth, his mind still groping in the fog, looked at it.

"Gee, it's me!" he exclaimed.

Wiener's folks were notified.

Remodelling Plans Not Yet Accepted

Plans for the remodelling of the building occupied by the Pennsylvania Power and P.-O. Electric Companies have not yet been decided upon, according to local manager, Louis Round.

It is probable that if the plans are accepted the building will be remodeled next spring.

DR. W. B. CALDWELL AT THE AGE OF 83

Mother! It's Cruel to "Physic" Your Child

To Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 47 years, it seemed cruel that so many constipated infants and children had to be kept constantly "stirred up" and half sick by taking cathartic pills, tablets, salts, calomel and nasty oils.

While he knew that constipation was the cause of nearly all children's little ills, he did not believe that a sickening "purge" or "physic" was necessary.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which helps to establish natural bowel "regularity" even if the child is chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement but, best of all, it never gripes, sickens or upsets the most delicate system. Besides, it is absolutely harmless, and so pleasant that even a cross, feverish, bilious, sick child gladly takes it.

Buy a large 60-cent bottle at any store that sells medicine or write "Syrup Pepsin", Monticello, Illinois, for a **FREE SAMPLE BOTTLE** and just see for yourself.

Sick Children Love "Cascarets" For the Bowels

Give "Candy Cathartic" for a bad cold, sour stomach, constipation

Get a 10-cent box now.

Most of the ills of childhood are caused by a sour, disordered stomach, sluggish liver and constipated bowels. They catch cold easily, become cross, listless, irritable, feverish, restless, tongue coated, don't eat or sleep well and need a gentle cleansing of the bowels—but don't try to force a nauseating dose of oil into the little one's already sick stomach—it is cruel, needless and old-fashioned.

Any child will gladly take Cascarets Candy Cathartic which act gently—never gripe or produce the slightest uneasiness—though they cleanse the little one's system, sweeten the stomach and put the liver and bowels in a pure, healthy condition.

Full directions for children and grown-ups in each package.

Mothers can rest easy after giving this gentle, thorough laxative which costs only 10 cents a box at any drug store.

Machine Topples Over Steep Embankment Near Greensburg In Heavy Fog

(International News Service)

GREENSBURG, Pa., Oct. 14.—Six persons were today recovering from serious injuries received late last night when the car in which they were riding plunged over an embankment and into a stream near the Greensburg Country club. A dense fog is said to have caused the driver to miss the bridge.

The injured are:

Mrs. Henry Burk, serious injuries to scalp and spine.

Miss Frances Burk, 20, lacerations of limbs and face.

Louis Burk, the driver, face wound.

Mrs. Charles Levendusky, lacerations and sprained ankle.

Mrs. Frank Levendusky, fractured arm and leg.

Miss Helen Levendusky of South Greensburg, face wounds.

The seventh passenger, a daughter of Mrs. Charles Levendusky, is suffering from shock.

Coal Production Is Above Normal

(International News Service)

GREENSBURG, Pa., Oct. 14.—All mine workers in the Greensburg and upper Connellsville coal and coke regions are employed and production is gradually nearing its peak, according to a survey made today of the situation.

All mines of the Keystone Coal and Coke Company are in operation. The Delmont Gas Company and the Irwin Gas and Coal Company are also operating with full crews.

The Westmoreland Coal Company now has 3,500 men working in the Westmoreland mines.

Heavy demand for coal from foreign countries is responsible for the increased production activity, A. P. Cameron, president of the Westmoreland Company, said today.

Formerly the dealers in ladies' ready-to-wear took one-half off at the end of the season; now the manufacturers do it at the beginning.

Local Soccer Team To Play At Butler

New Castle Soccer Club has accepted the invitation of the Butler celebration committee to play an exhibition game against the Glencoe Thistles of Mercer, Armistice Day in Butler. The game will be played at the high school stadium. The players will be the guests of Dr. Hays at a luncheon at the Y following the game. New Castle players are requested to report for practice at the B. & O. grounds at 2:30 p. m. Saturday.

NEXT SUNDAY MISSION DAY

Pulpits Of Many Of Churches To Be Occupied By Mission Workers

MASS MEETING FOR AFTERNOON

Cause Of Mission Will Be Presented To Entire City On Sunday

One Sunday is set apart every year in New Castle churches for the City Rescue Mission. On that Sunday the mission provides a speaker and at least one service is devoted to the mission and its cause.

In each church an appeal is made for money enough to carry on the wonderful work of the City Rescue Mission and every year has seen the appeal answered with a flood of dollars which go back into service to the unfortunate.

October 17 This Year.

The Sunday set aside is always the third Sunday in October, and this year the day falls on October 17. Because it is the 15th anniversary of the New Castle City Rescue Mission, Superintendent E. J. Berquist is making special plans for a bigger observance than ever and in almost every downtown church some well wnown mission man will fill the pulpit.

It promises to be a wonderful Mission Day this year. The list of speakers includes some of the best known mission men in the United States. Such men as Bob Ingersolf of Grand Rapids, George W. Soerhide of Cleveland, Fred Becker of Milwaukee, Wis. and many others.

All of them will speak morning and evening. In the afternoon a big mass meeting will be held in the First Presbyterian church at 3 o'clock with Rev. G. A. Leichliter speaker and a number of the mission men making short talks.

Special Music.

A feature of the afternoon mass meeting will be the appearance of the Apollo club, a male glee club of this city comprising 25 voices. The club is under the direction of Richard E. Johns and is too well known to need much advance press agenting.

Rev. Leichliter and Peter Quartel will also sing and the duets they have been singing this week in the nightly meetings will be heard Sunday afternoon.

The speaker assignments for the Sunday meetings follow:

Morning service—First Presbyterian, George W. Soerhide of Cleveland, O.; First United Presbyterian, A. C. Blackmore, Erie, Pa.; First Chrisitan, Bob Ingersoll of Grand Rapids, Mich.; Highland United Presbyterian, E. J. Berquist of New Castle; Epworth Methodist, Rev. G. A. Leichliter and Peter Quartel; Reformed Presbyterian, J. M. Cottrell, Youngstown, O.; Central Presbyterian, Fred G. Becker, Milwaukee, Wis.; Bethany Lutheran, R. C. Harrison, Plymouth, Pa.; Mahoningtown Methodist, E. C. Clark, Buffalo.

Evening service—Second United Presbyterian, A. C. Blackmore; Third United Presbyterian, George W. Soerhide; Croton Methodist, E. C. Clark; Central Christian, Fred G. Becker; Seventh Ward Presbyterian, Bob Ingersoll; St. Paul's Lutheran, J. M. Cottrell; Third Christian, R. C. Harrison; City Mission, Henry Johnson.

A Sunday mass meeting will also be held in the First Presbyterian church with Rev. G. A. Leichliter speaking and Peter Quartel in charge of the music. Rev. Walter E. McClure, pastor of the church, and E. J. Berquist, superintendent of the mission, will also have a part in the service.

October 17 will be the only day of the year upon which the City Rescue Mission will make an appeal for funds. The amount derived on that day will govern the amount of service which can be rendered to those in need during the year. The larger subscriptions, the larger service. Every dollar will be used here at home for the work of the mission.

Fine for Children!

Give them a good start in life, with happy smiles and healthy little bodies. Children need a mild corrective occasionally to regulate stomach and bowels. Dr. Edwards' Olive Tablets are a safe vegetable compound mixed with olive oil. They tone up and regulate the eliminative tract. Not a nasty cathartic or a habit-forming medicine, but a safe pleasant remedy for constipation, sour stomach, torpid liver, bad breath, and similar disorders. Dr. Edwards, a widely known family physician of Ohio, prescribed these tablets for many years in his own practice. Children from six years up are greatly helped by them and like to take them. Recoginzed by their olive color, Dr. Edwards' Olive Tablets overcome those irritable spells that many children are subject to, keep their bodies in active healthy condition, skin clear and eyes bright with the light of perfect health. 15c, 30c and 60c sizes.

Coke Production Displays Gain

Total Output Of Coke For Last Week In Connellsville Region Was 153,350 Tons

(International News Service)

CONNELLSVILLE, Pa., Oct. 14.—While production of coke in the Connellsville region last week was less than that of the preceding week, a continued gain in production was noted in a survey today. The week's increase was 3,570 tons, as compared with a gain of 9,090 tons the week before.

The total output was 153,350 tons, which is another high level in the present upward movement, now entering on its fourth month. The merchant producers continue to make greater progress than the furnace, over which the former gained ascendancy early in September. The quota of the merchants for the week was 80,850 tons, or 8,350 tons in excess of that produced by the furnace plants.

The merchant operators have 6,187 ovens in blast; the furnaces 4,375. The increase in ovens for the week was 252, all at merchant plants.

The region is still without evidence of any kind that could be construed as indicating undue haste on the part of producers in enlarging output. Such additions as are being made from week to week are being regulated by the ability of the market to absorb coke as made, there being an absence of attempt to anticipate changes in the direction of sudden or large increase in demand.

The market continues strong but lacks the actual buying demand. Furnace coke commands $3.50, which operators insist is below what it should be. They hesitate to put in additional ovens to make $3.50 coke. Foundry product is selling at $4.25 to $4.75, which prices prevailed a week ago.

Kirker Attends Pittsburgh Meeting

Walter Kirker, physical director of the local Y. M. C. A. is in Pittsburgh attending the Western Pennsylvania Physical Directors conference. The meeting is being held at the Central Branch Y. M. C. A. for the purpose of deciding where the finals in all championship contests will be held.

Mr. Kirker is trying to get the one wall handball championship finals here, also they have a bid in for the wrestling contests. The handball contests were held here last year, and they would like to have it again. It will be held in the spring months of March and April.

TROOP 10 MEETS

Troop 10 of the New Castle Boy Scouts held their meeting last night under Scoutmaster Raney. Three visitors and twelve scouts were present. A hike was planned for the coming Saturday morning at 8:30. The scouts will start from the school.

COOLIDGE TO LACK WORKING MAJORITY OF NEXT U.S. SENATE

By GEORGE H. MANNING
(Washington Correspondent of the News).

WASHINGTON, D. C., Oct. 14.—With all the primaries now finished it is clear today that during the last two years of the second term of President Calvin Coolidge the Administration will lack a working control of the Senate regardless of whether the Democrats capture the next Congress.

Accordingly there is ahead of President Coolidge difficulties similar to those encountered by President Taft and President Wilson during the last two years of their respective administrations. Even if the Democrats do not carry the Senate the administration is still out of luck. The last chance of organization control of the upper chamber passed when Senator Irvine L. Lenroot, of Wisconsin, an administration leader, was defeated in the primaries by Governor John J. Blaine, a La Follette progressive and anti-administration candidate.

The disaster to the administration in Wisconsin followed the defeat of the late Senator Cummins, of Iowa, by former Senator Smith W. Brookhart. There are no seats that the Republicans may pick up to offset these losses. The Democrats have all the advantage because practically all Democrat vacancies are in safe territory and the G. O. P. can expect no further additions to its strength in the Senate. In fact in states like Maryland, Ohio and Kentucky there is a possibility that the Democrats may oust a sitting Republican Senator.

At the very best, it appears, the Republicans can hope to maintain only a paper majority. The Republican insurgents will hold the balance of power in the next senate, as they did in the Sixty-eighth Congress. Numerous coalitions between the Republican insurgents and the Democrats are possible and probable, whether the issue be taxation reform, tariff revision or the ordering of investigations of the Coolidge administration.

Make-up Of Senate

The present Senate has comprised fifty-five Republicans, forty Democrats and one Farmer-Laborite. But the so-called Republican list included five out-and-out insurgents and when they stood against the Administration—which was quite often—the Republican strength dropped to fifty. There were other near-insurgents upon whom the party leaders could not always count in a pinch, so during the Sixty-ninth Congress the Republican majority has always been shaky.

Already the primaries have cost the Republican stalwarts two additional votes which cannot be regained in the November elections. The defeat of Lenroot and Cummins means the entry of two more rampant insurgents—Blaine and Brookhart—who are labeled Republicans but are thoroughly independent and as likely to vote with the Democrats as with the party organization.

Since the Democratic vacancies are in the Solid South the Republicans, even on paper, cannot hope to do better than hold 5 seats.

In this potential group of 55, which may be reduced by a Republican Senator being picked off in some close state, are included insurgents and progressives as follows:

Frazier and Nye, of North Dakota; La Follette and Blaine, of Wisconsin; Norris and Howell, of Nebraska; Brookhart, of Iowa.

Many Who Aid Not

Furthermore, there must be taken into account Borah, of Idaho; Couzens, of Michigan and Johnson, of California, progressives who steer an independent course although they may not be so radical as a Brookhart, or a Blaine. They reserve and exercise the right to vote against an administration measure at any time. So when all the radicals and semi-radicals are counted, and a Farmer-Labor vote is thrown in, it is not difficult to forsee that trouble is ahead so far as Coolidge domination of the next Senate is concerned. And there is the further danger, from the administration standpoint, that the Democrats will gain a few votes even if they do not get control of the Senate.

Luck somewhat like this was encountered by William Howard Taft and Woodrow Wilson in the last two years of their administrations. While the war was on President Wilson appealed to the country to return a Democratic Congress and the country did just the opposite. It was said that the war President received bad advice when he made such a partisan appeal. Coming into legislative power the Republicans started numerous investigations of "war expenditures," defeated the League of Nations covenant and otherwise harassed the Wilson administration toward its close.

President Taft, some years before was beset by a Democratic majority in the middle of his term.

The fate of the Coolidge administration and the prospective Coolidge third term will be written within the next two years. A Democratic Congress, or a Senate hostile through combination of Republican insurgent and Democrat votes, is not a pleasant outlook for administration leaders.

The Truth About Eczema and Piles

Thousands and thousands of people are learning every week that one 35-cent box of Peterson's Ointment will abolish eczema and banish piles.

"I had eczema for many years on my head and could not get anything to stop the agony. I saw your ad and got one box and I owe you many thanks for the good it has done me. There isn't a blotch on my head now and I couldn't help but thank Peterson, for the cure is great". Miss Mary Hill, 420 Third Avenue, Pittsburgh, Pa.

"I have had itching piles for 15 years and Peterson's is the only ointment that relieved me, besides the piles seems to have gone". A. B. Ruger, 1127 Washington Avenue, Racine, Wis.

Use Peterson's Ointment for old sores, burns, bruises, chafing and all skin diseases. Druggists recommend it.

E. H. Trolinger Business Manager Of Tulsa Church

Enoch H. Trolinger, who made many friends in New Castle last March while assisting in the special evangelistic services conducted by Dr. C. H. Holcomb in the First Christian church, has been secured as business manager in the First Christian church of Tulsa, Okla., according to word received here by friends.

This church has a membership of 2,400. It is one of the largest churches in the West and is located in one of the livest cities in the country.

Mr. Trolinger is a gifted singer and was song leader at the meeting during his stay in New Castle.

The Tulsa church is to be congratulated in securing such an able man on the church staff.

Noted Speakers At Convention In Christian Church

Prominent Religious Workers At Five County Meeting Here October 15

Robert M. Hopkins, head of the division of religious education of the United Christian Missionary Society at St. Louis, Mo., will be one of the speakers at the one day convention conducted Friday, October 15, in Central Christian church, Long and Pennsylvania avenues.

Mr. Hopkins is one of the best known men of the Disciples of Christ. He was state Bible school secretary in Kentucky for ten years and was called from that work in 1910 to take charge of the Bible school work of the American Christian Missionary Society. He holds a number of college degrees and was a successful pastor before he entered the wider field of religious education.

Mrs. T. A. Young, a missionary to Japan, will be the principal speaker at the evening session. During the years that she spent on the foreign field, she made a magnificent record for efficient work and generous unselfish service. Her message promises to be inspirational as well as instructive.

The sessions Friday will begin at 10 a. m. and 1:30 and 7:30 p. m. A fellowship banquet in charge of young people will be given at 6:30 p. m.

Representatives will be present from the Christian churches of Lawrence, Mercer, Beaver, Butler and Venango counties.

Mrs. Vincent Astor To Attend Rumanian Queen On Visit Here

(International News Service)

NEW YORK, Oct. 14.—Mrs. Vincent Astor, society leader, today is holder of one of the most coveted titles within the realm of New York social leaders. She has been appointed special envoy of Mayor James J. Walker to Queen Marie of Roumania during the sovereign's stay in New York.

As the official representative of the mayor, Mrs. Astor will be at Queen Marie's service as an honorary lady-in-waiting. The appointment was keenly sought by scores of socially prominent American women.

INTERESTING HOBBIES AND DIVERSIONS OF EMINENT WOMEN OF UNITED STATES

News Correspondent Notes Variety Of Hobbies That Make Appeal

Some Are Strenuous And Some Are Mild; But Most All Different

(By JANE BENEDICT)
(Special Correspondent of the News)

WASHINGTON, D. C., Oct. 14.—Not all of Alice Paul's time is spent in obtaining equal rights between men and women. Not all of Belle Sherwin's is devoted to the political education of the new voters of America. Nor all of Mabel Willebrandt's spent in collecting evidence to convict violators of the Federal prohibition and income tax laws.

Women who seem to spend their whole time in public work have their hours of play. Perhaps some of their success may be due to their ability to spend their leisure hours as effectively and as happily as they spend their working hours.

They have their hobbies and their recreations. Maggie W. Barry, of Texas, chairman of the Department of the American Home of the General Federation of Women's Clubs, was talking to me the other day about the paucity of most people's resources.

"We spend a lot of time trying to solve the problem of the surplus cotton and the surplus wheat we produce," Mrs. Barry said, "but we pay no attention to the problem of the most important surplus of all—surplus time. Americans, in their eagerness for success, fail to cultivate habits of enjoyment, means of spending their leisure joyfully and profitably, too.

British Leisure

"The British, for example, are much more adept in spending their leisure than we are. Everybody in England seems to have his favorite recreation or hobby. A business man may be a connoisseur in the arts. A politician may be devoting his leisure hours to scientific research on a amateur basis. A lawyer may be an expert gardner on the side. Everybody seems to have some outdoor sport or some hobby in the arts or sciences which keeps his mind keen and his interest alert in his leisure hours.

"And that is what American women need to learn to do."

A little investigation proved that America's women leaders are doing just this.

Has A Farm

Miss Sherwin, whose home is in Cleveland, Ohio, spends almost all her time in her Washington office as president of the National League of Women Voters, or out in all the 48 states speaking or conferring with state leaders, with the political education of the electorate as her chief object. But back in the country outside Cleveland, Miss Sherwin has a farm, run on a cooperative basis, with magnificent gardens she has herself developed. She knows the names and culture of virtually every flower known to horticulturists. Her horticultural and landscape gardening experience has caused her to be Wellesley College's authority on the development of its grounds. She is a member of the Board of Trustees.

Reads Poetry

Back in the days before the Suffrage Amendment was written into the Constitution of the United States, Alice Paul's best friends never knew her to find any recreation but reading poetry. She had no time, for she felt that she owed every minute to the enfranchisement of women.

But now that Suffrage is won, and the first steps toward equal rights taken, many mornings find Miss Paul out on the tennis courts or swimming in the Potomac River. Those who remember the slight figure of suffrage days, with such a mass of hair that it seemed to overburden her small frame, may be astounded to find that Miss Paul's dearest love, outside the advancement of women, is athletics. Alice Paul might have been the first woman to swim the English Channel had she not chosen to work for the political and economic rights of women instead. She was a formidable tennis player in her Swarthmore college days.

Sports Appeal

"I believe that I could spend all my time in sports if I did not have to work for equal rights," Miss Paul once told me.

Mrs. Willebrandt's hobby is palmistry and other occult methods of reading character. While she has enough of a sense of humor not to take much stock in the validity of such character-reading, she finds it rarely diverting, and is an expert on its technique. That is probably because Mrs. Willebrandt's chief interest is people. But most of her spare time is now spent with her young adopted daughter, Dorothy.

Golf Devotee

Bessie Parker Brueggeman, chairman of the United States Employe's Compensation Commission, is a golf devotee. Time was when she felt any day lost half of which was not spent on the links. But that was before she undertook the job of seeing that every employe of the United States Civil Service and the Naval Reserve who is injured by accident or occupational disease gets justice, and that the United States Treasury is also protected. She still plays about once a week, however.

Grows Fruit

Alice Beale Parsons, New York author, Feminist, and peace worker, has a farm out near New York on which she grows fruit and vegetables for her family—merely as a hobby. She is well trained for such a strenuous hobby, as her first job, after she got out of college, was to manage a 1,000 acre farm in Canada.

Plays Cello

Doris Stevens, another of the Woman's Party workers for suffrage and equal rights, is now playing the cello for amusement. Like Miss Paul, however, she had no time to devote to her hobby until after suffrage was won. Miss Stevens is the wife of Dudley Field Malone, defender of young Scopes in the Tennessee evolution trial, and attorney for Gertrude Ederle, among other eminent people.

As for "Trudy" herself—that little red roadster for which she swam the Channel seems to be her chief hobby.

Sophie Kerr, known to her friends as Mrs. Underwood, has a lovely back-yard garden in the midst of New York City, and two cats, called "Useless" and "Worthless", to amuse her when she is not writing fiction.

Music Critic

Judge Florence Allen of Ohio, the first woman in the United States to become a state supreme court justice, is a student and critic of music.

For many women who have achieved success in some profession, however, politics, feminism, peace, protection of children, labor, or some other "movement" forms the chief outside interest. On the other hand, the amateur interests of many women of leisure have resulted finally in their eventually taking up professional work, because they have become experts through the thorough cultivation of a hobby. Writing or politics or some form of art is the most usual hobby out of which women of leisure develop a professional and economically profitable expertness.

GIRL'S AUTO SKIDS INJURING TWO BOYS

CHARLEROI, Pa., Oct. 14.—William Dury, 9, is in a hospital here suffering from a fracture of the skull and body bruises, and Joseph Valovich, 7, is confined to his home with lacerations and bruises of the head and body as a result of being struck by an automobile. Miss Helen Lee of Bellevernon, the driver of the machine was released on her own recognizance following her report of the accident to the police. According to the young woman her automobile skidded in the car tracks and plunged onto the sidewalk before she could regain control. The Dury boy is a brother-in-law to Miss Lee.

First aid to Beauty is true *cleanliness*

Nothing brings out the beauty glow of healthy skins like the thorough cleansing that only fine soap and water can give. Beauty needs the healthy activity of free-working pores—clog *them*, and you coarsen the skin. That's why you want the thorough cleansing lather that Sweetheart makes in any water, hot or cold, hard or soft—a rich, thick, creamy lather of perfect mildness and purity. Home-made Supply of Fine Cough Syrup
Better than ready-made cough syrups, and saves about $2. Easily prepared.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this home-made syrup, easily prepared in a few minutes.

Get from any druggist 2½ ounces of Pinex, pour it into a pint bottle and fill the bottle with plain granulated sugar syrup, or clarified honey, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the throat tickle and heals the irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary cough and it is splendid for bronchitis, hoarseness and bronchial asthma.

Pinex is a most valuable concentrated compound of genuine Norway pine extract and palatable guaiacol, which has been used for generations to break severe coughs.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with directions. Guaranteed to give absolute satisfaction or money promptly refunded. The Pinex Co., Ft. Wayne, Ind.

Odd Fellows Will Meet At Gettysburg

GETTYSBURG, Pa., Oct. 14.—More than 500 members of the Independent Order of Odd Fellows of Pennsylvania and the Rebekah of Odd Fellowship will be in this city from October 17 to 21 for their annual encampment.

The occasion will be the 97th annual encampment of the Independent Order of Odd Fellows of Pennsylvania and the third annual meeting of the Pennsylvania department, Council of Patriarch's Militant.

Besides the 500 official delegates to the sessions there will be hundreds of visitors according to plans of the various lodges of the state to send visitors to the encampment.

MISSING SCHOOL GIRL FOUND IN HANCOCK WITH CARNIVAL MAN

MOUNTAIN LAKE PARK, Md., Oct. 14.—Miss Esther Zepp, 17-year-old high school girl of this village, where her father is a clergyman, was located at Hancock, Md., yesterday by Sheriff G. J. Yutzy, of Garrett county. She was with a young stranger who had been with a carnival which showed at the Oakland fair last week.

Miss Zepp is in her second year at Oakland high school. Yesterday morning she walked out of Oakland with the carnival man and, with occasional lifts, the pair had reached Hancock when overtaken.

CANDIDATES REACH CLEARFIELD COUNTY IN CAMPAIGN TOUR

(International News Service)

CLEARFIELD, Pa., Oct. 14.—Congressman W. S. Vare, Republican senatorial nominee, John S. Fisher, gubernatorial nominee and other party nominees invaded Clearfield county today in their campaign for election in November.

The candidates came from Boalsburg where they were the guests of Col. Theodore D. Boal.

Declaring that Pennsylvania has more at stake than any other state in the union in the continuation of Republican polices, Congressman Vare urged the election of a Republican congress "as the preservation of the protective tariff is absolutely essential."

'KNICKERED' GIRL NOT ALLOWED IN SCHOOL; MOTHER FILES SUIT

JEFFERSONVILLE, Ind., Oct. 14. — Mrs. Fahyma Allen, mother of nine-year-old Virginia Allen, who has been barred from public schools at Port Fulton, near here, for three weeks, because she wore knickers, filed suit in the Clark county circuit court today asking for a mandamus requiring the school authorities to allow Virginia to attend school.

ALLEGES HE FIRED IN SELF DEFENSE

SHARON, Pa., Oct. 14.—County Detective Leyshock and Sheriff Smith, of Trumbull county, arrested "Black Pete" Valtagio, in connection with the shooting, last Friday, of Lester Shoddle, of Sharpsville, at the farm home of Ernest Degiuli, north of Burg Hill, O.

Valtagio admits he took part in the affray, but says he fired in self-defense. He waived extradition and was taken to Warren, O., jail by Sheriff Smith.

Shoddle is in Buhl hospital with a bullet wound near the heart, but is expected to recover.

"BE A GOOD NEIGHBOR"

Are You Overdoing?
Hurry, Worry, and Overwork Bring Heavy Strain.

MODERN life throws a heavy burden on our bodily machinery. The eliminative organs, especially the kidneys, are apt to be overtaxed and become sluggish. Retention of excess uric acid and other poisonous waste is apt to give rise to a dull, tired feeling and, often, toxic backaches and headaches. That the kidneys are not functioning properly is sometimes shown by burning or scanty passage of secretions. More and more people are learning to assist their kidneys by drinking plenty of pure water and the occasional use of *Doan's Pills*—a tested stimulant diuretic. *Ask your neighbor!*

Federal Agents Divorced From Petty Raiding

Pennington Says Federal Sleuths Not To Seek Petty Bootleggers

By JAMES V. CARLMAAN.
International News Service Staff Correspondent

PITTSBURGH, Oct. 14—The federal prohibition enforcement unit of Western Pennsylvania stands definitely divorced from the work of policing the district and rounding up minor offenders and petty bootleggers.

"The paramount duty of my department" John D. Pennington, district administrator told International News Service, "is to keep the region clean of operations by wholesale manufacturers and distillers of illicit liquor. I do not intend to attempt to run down every backstairs and cellar pint size still operator. That is primarily the duty of local and county officers.

"The people do not expect my force of 65 active field operatives to patrol the district. If people complain that local officers cannot or will not enforce the prohibition law, then it is clearly the duty of those people to elect officials who will do so.

"There is larger work before me than that of sending my men out as booze-sniffers. We intend to clean up the wholesale violators of the law and keep them cleaned up, but my men will not spend their time in detail work while there exists a single illicit brewer or wholesale violator of the law."

Local Boys Return From Trip West

ELLWOOD CITY, Pa., Oct. 14.—John Nicholls and Joe Riley have returned from an extended motor trip to Boulder, Colo., in their car known as the "Orchard 8". It is rumored that the naming of the car had something to do with the squire's home during their visit, but this rumor is not confirmed. They visited the Lesser brothers while away and left their other buddy, Edward Cennei, who found employment in Colorado, and decided to stay.

Parent-Teachers Meeting At School Near Moravia Stop

ELLWOOD CITY, Pa., Oct. 14.—An interesting meeting was conducted at the Moravia Stop schoolhouse Tuesday evening, Oct. 12. There was a large number of parents in attendance.

Many interesting subjects were discussed. A special meeting was called for Tuesday, Oct. 19, to arrange for a social to be enjoyed October 23. All patrons of the school will have an important part in the celebration.

Annual Jubilee To Be Celebrated Soon

ELLWOOD CITY, Pa., Oct. 14.—The annual jubilee will be celebrated at the First Presbyterian church on Wednesday, Oct. 20. An especially fine program has been arranged for this occasion by Mrs. T. W. Jones and a committee. Supper will be served after the directed play time in the late afternoon.

The evening will be devoted to music by the choir and the congregation will have an opportunity to meet them informally.

As in previous years, there will be the offering to the church. One year a bronze medal was presented for Rev. Frank Reber, another year the bulletin for the front of the church, the pulpit Bible, the lights for in front of the church and collection plates have been provided in this manner.

Poppies Made By Legion Auxiliary

ELLWOOD CITY, Pa., Oct. 14.—About twenty women members of the auxiliary to the American Legion attended the meeting at the home of Mrs. H. W. Smith of Second street, Tuesday evening. During the business session plans were made for selling poppies both on November 6 and Armistice Day. Other plans were made for a candy social to be conducted October 23.

Hallowe'en decorations were used throughout the home and lunch was served by the committee, consisting of Mrs. Smith, Mrs. R. E. Zeigler, Mrs. Myron Gelbach, Mrs. Howard Jones, Mrs. T. W. Jones and Miss Helen Whittaker.

The women spent the evening making poppies and plans have been made to have the future meetings at the different homes where the making of poppies will comprise the general program of entertainment for the evening.

The seventh and eighth grades of the Koppel public school met at the school in order to organize a Literary society. Literary society meetings are common among the children of the school as the first one was organized about four years ago. J. D. Muder the principal of the school organized the first one in the class of '23. Robert Campbell was nominated for president and Reba Blair for secretary.

Sympathy Letters Reach Browning

Flappers Of Nation Can't Understand Why "Peaches" Deserted Her "Daddy"

(International News Service)

NEW YORK, Oct. 14.—Girls all over the country are writing to Edward W. Browning expressing their sympathy and "trying to lighten his sorrow," the "Cinderella man" revealed today. Many of the girls simply can't understand why 16-year-old "Peaches" should run away from "Dear Daddy."

So many letters are coming to Browning that he has had to put the staff at his office to work handling them.

"I believe these women are sincere and that they are with me in my trouble with 'Peaches,'" said Browning. Women everywhere—Pottsville, Pa., Oakland, Cal.,—are writing. They have kind thoughts for me. They see how I am troubled."

"Peaches" has been gone 13 days from Browning and she shows no sign of coming back. She says she is "through" with him.

SMOKE SCARE IN SOUTH SIDE HOME

City firemen were called to the home of J. Cotler, 1100 South Jefferson street, this morning by an alarm from Box 53 at 10:45 o'clock. Mrs. Cotler had just put a fire in a heater, which while it had been installed two years ago, had not been in use since that time. The result of her efforts was to have the place filled with smoke. It is thought that some bricks of the chimney fell down and blocked the smoke exit.

Start Annual Pursuit Of Low License Tags

The annual pursuit of low license tags has begun.

There are approximately one million three hundred thousand motor cars in Pennsylvania and the majority of the owners would like license tags under a hundred. Failing in that they will be glad to accept something under a thousand.

If a person can not get a low tag they will some times be satisfied with "trick numbers." They mean a tag bearing nothing but sevens or nines or something like that or a "straight"—consecutive numerals like 12345. The tag which has the cell however is that bearing similar numbers—four sevens or five nines. In every million tags, however there are only 60 such plates. Their holders have had them from five to 14 years and guard them jealousy.

Governor Sproul during his term of office cornered the crop of sevens. He had No. 7, No. 77, No. 777, No. 7,777 and No. 77,777. Governor Pinchot likes the number one and his cars bear No. 1, No. 11, No. 111 and No. 1,111.

The next governor of Pennsylvania will have No. 1 on his official car and private car but Gov. Pinchot has retained for 1927 the 11, 111 and 1,111.

SNYDER TO BE IN CHARGE OF COUNTY HOME

Will Be Resident Superintendent When New County Home Is Opened For Service

Perry Snyder who has been warden at the New Castle city home for some years past, is preparing to assume charge of affairs at the new city-county home, soon to be opened. Mr. Snyder was recently appointed by the county commissioners for this post.

Likewise, M. B. Hogue who has been appointed outside relief agent or county welfare agent by the county commissioners, to look after supervision of the county poor district affairs, is also making preparations to inaugurate the new system whereby the county assumes charge of the poor of both the city and county.

Both men were informed some time ago of the pending appointments and they have been making preparations for assuming their new duties under the new county poor district regime.

Plan To Punish Prisoners For Recent Outbreak

Twenty-Five Heavily Armed Guards Watch Prisoners In Delaware County Bastile

(International News Service)

MEDIA Pa., Oct. 14—While 25 heavily armed volunteer guards paced the corridors of the Delaware county prison today, prepared to "shoot to kill" convicts who foster a second mutiny the board of prison inspectors held a stormy meeting in Warden George Allen's office and decided upon immediate action to relieve the congested condition of the institution.

The insurrection of yesterday it was decided, was due to overcrowding of prisoners in the 65 cells. Nearly 200 convicts were housed there when the jail was built to accommodate but half of that number.

Resignation of the five guards who were routed by the seven convict leaders was accepted by the inspectors effective at once. New guards will be appointed today.

The inspectors also authorized Warden Allen to punish the leaders of the outbreak.

East Brook School Will Soon Be Ready

Part Of New Building Will Likely Be In Use In November

County Superintendent of Schools John C. Syling, reports that plasterers are now at work on the new East Brook high school building, and that at least a portion of it will be ready for occupancy by November 1.

The Hickory township school board will hold a meeting next Monday night at which it is expected that a contract will be let for the transporting of pupils to the school. It is probable that the pupils from Briar Hill, McDowell and the East Brook school will first be taken care of and then pupils from the Moffatt school. Supt. Syling is very well pleased with the progress that has been made on the building.

No Word Yet On Proposed Bridge

County commissioners have been patiently waiting for some word from the public service commission regarding the proposed Wampum viaduct and bridge over the Beaver river. Inspection of the different sites was made during the earlier part of last summer, and data regarding the proposed improvement submitted. The next move is up to commission but nothing, apparently has been done.

Sending America foreign magazines containing hooch ads, may eventually make that hate business work both ways.

CHRYSLER INFLUENCE ON MOTOR CARS TOLD

Improvements Brought Out in First Car Nearly Three Years Ago Have Revolutionized Motordom.

DETROIT, Oct. 2.—A study of the motor car of today reveals the continued far-reaching influence that Chrysler has exerted on all types of motor cars. That company, nearly three years ago, pioneered a score or more of fundamental and revolutionary improvements which are consistently being adopted—some in one car, others in another. Moreover, continuously since its first car, Chrysler has added numerous other features, in keeping with its policy of maintaining leadership.

The company points out that it introduced the car which first confined the abilities of 70 miles and more per hour, acceleration of 5 to 25 miles in 7¼ seconds and a gasoline economy of better than 20 miles per gallon. Its model "70", it declares, is still the only car that enjoys this combination.

Chrysler's seven-bearing crankshaft, extra large and balanced statically and dynamically, with shimless bearings, was the first such in its field. The combination brings about remarkable smoothness of engine operation and prolonged endurance.

On the first car the company produced, appeared as standard equipment the oil filter, now widely accepted throughout the industry; thermostatic engine heat control new in cars of this price class; heat indicator on the dash, known as the radimeter; and the air cleaner, restricting all dirt and dust from the engine, and assisting to eliminate carbon.

Scientific fuel distribution in the first Chrysler was achieved by designing each cylinder to receive identical charges of gas vapor at identical temperatures, with its resulting fuel economy, power evenness and flashing pick-up. To facilitate cold weather starting and minimize crankcase dilution, the engineers introduced the electrical fumer. Manifold heat control, another pioneer step, makes for continued better operation. Its more convenient light control—integral with the horn button—has been widely used. Likewise the indirect lighting of the instrument board and gasoline gauge on dash, which it first introduced as standard equipment.

Chrysler popularized among other fundamental chassis betterments the tubular front axle designed particularly to take the torsional strains of front wheel braking; hydraulic four wheel brakes making for safety of handling, pioneered and developed by Chrysler engineers; pivotal steering, resulting in self-righting of the wheels following a turn and assuring easier handling; specially designed rear springs parallel with the wheels, eliminating sideaway, and also was first with small balanced wheels and tires.

Chrysler popularized ornamental radiator caps, introducing wings as part of its characteristic design. Today nearly every car maker has devised something along the same pattern.

Late in 1925 its engineers found, after long testing, that a high grade steel alloy, Invar, made an ideal strut for pistons, enabling them to be fitted closely and permitted them to combine the advantages of both aluminum and cast iron pistons without the disadvantages of either. Pistons with Invar struts are now used on the "60", the "70" and Imperial "80". This Chrysler innovation is being elsewhere adopted.

The first Chrysler advanced an entirely new body design, a compact yet roomy car, combining comfort and driving ease without wasteful weight or extravagant size. Dynamic symmetry of design in the motor car body which calls for smoothly flowing curves throughout the length of its construction, is an adaptation of the principles of descriptive geometry to motor car design, never before then heard of.

It was first to design, also, the front end as an integral part of the body, considering the body as a unit from the radiator shell to the rear quarter, instead of merely from the cowl. That is why, in the Chrysler design, the hood flows into the body and looks like a definite part of it. It finished these bodies with the doubletone color combinations, which re-created American taste of that period in motor car finish. It was first to use the double head, which was actually part of the construction and not simply tacked on to enhance appearance.

More than a year ago it instituted, first of all makers, the Fedco numbering system as a protection against theft.

The vogue of the roadster is another distinct Chrysler contribution. Chrysler popularized the roadster by building a car in duotone that appealed to the public as a "lively, get-up-and-go" car. It also popularized the rumble seat, as well as unison seats in this type of car.

LEPRECAUN LUCK

Sometimes when you are with someone whom you love very much, someone who cares very much for you, you are too happy to say a word. You just sit and think of how glad you are to be there. And that's exactly how Peter and Pat felt.

Peter, you see, couldn't remember when he hadn't longed for a pal like Pat. All the dogs he met were his friends, but never in all his life had he had one upon whom he could depend, a dog who would follow him wherever he went, would be ready to play when he felt like a romp, would be willing to sit by his side when he was weary, would curl up at his feet, perhaps on the foot of his bed at night. All these things thought Peter, but he couldn't have expressed them to save his life. As for Pat, well, Pat had found the master he'd dreamed of all his days. So there they sat, beneath the tree, each content for a time just to be near the other.

But it is pretty hard for either boy or dog to keep still for very long at a stretch, and it was Pat who first found his tongue.

"Sure and 'tis a favored Dog I am. I doubt not but that a Leprecaun turned my eyes and feet this way!"

"What is a Leprecaun?" demanded Peter, who never before had heard of the thing.

"You're not knowing?" Pat turned upon Peter a look of such surprise that the boy felt he ought to be ashamed of himself for his ignorance.

"Ah, I was forgetting, you're not Irish!" barked Pat, "so how could you be knowing. A Leprecaun is a wee bit of a man all dressed in green, with a pointed cap on his head and shoes that curl up at the toes. He cobbles, does the Leprecaun, and 'tis that he who has a pair of his shoes has luck with him for life. But the pair of shoes are hard to get—they're never bought and never sold and only for a day of good deeds and a bit of gold left on the kitchen table at night will the Leprecaun part with his handiwork. Some say 'tis no wee man at all he is but a fairy. But man or fairy, which ever he is, sure if he but passes you by good fortune will follow you all the day—that's Leprecaun Luck."

SATURDAY IS HOME-COMING DAY AT WESTMINSTER

Record Crowd To See Battle

New Wilmington Eleven To Meet Thiel On College Gridiron

LOCAL TEAM HOPES TO WIN BIG GAME

Hundreds Of Westminster Enthusiasts To Gather For Day's Events

(Special To The News)

NEW WILMINGTON, Oct. 14.—Fair weather Saturday will see the largest football crowd in the history of Westminster College, according to Graduate Manager of Athletics A. A. McDonald. The occasion will be the home-coming day and will find Westminster meeting Thiel in a tri-state tilt.

Of the remaining games on the card there is none that Westminster would rather cop than Saturday's game. Two years ago Thiel came to New Wilmington primed to win easily but won out only in the last few minutes of play. Last year Westminster was picked to win at Greenville but after outplaying the Lutherans for three quarters the Greenville school braced and won out by two touchdowns.

Westminsterites have decided that enough is enough. Judging from the performances of the two squads thus far Westminster has at least an even chance. Thiel defeated St. Francis by one touchdown and then lost by a single point to Waynesburg. Westminster's record shows a defeat at the hands of Duquesne, a 38-0 victory over Buffalo and a 7-7 tie with Bethany.

It will be a test of the Pitt system against that used at Carnegie Tech. Tommy Holleran, former Pitt star quarterback, is mentor at Thiel where he has had excellent results, while Dwight "Dyke" Beede, one of Wally Steffens most adept pupils at Tech has charge at Westminster.

The fans will be treated to a contest that is certain to be replete with thrills. Westminster's attack this year carries power which is based on speed. The manner in which Bethany was played to a standstill last Saturday proved the strength of both the offense and defense. Thiel's system calls for long end runs with off-tackle bucks coming with frequency.

Westminster's Home Coming day program will start Friday evening with a monster pep meeting. Graduate Manager McDonald has completed arrangements to handle a large crowd of alumni and others who are interested in this year's Blue and White unit.

Second Bicycle Race Is Planned

Longer Course Is To Be Arranged For Speed Contest Saturday

Plans have been made for the holding of another bicycle race for the students of the Senior High school on Saturday morning Oct. 18. This will be the second race of this type that has been held as a very successful one was held two weks ago and was won by Robert Vaughn a junior.

The course of this race will be longer than that of the other and it will be more of a test of endurance than of speed. Many of the high school pupils ride bikes and this is a pleasant source of recreation that also offers lots of competition for many are expected to enter.

Vaughn will defend his title for he is just the opposite of what Dempsey was and he will be in there strong at the finish for any one that can lick him in a bike race can be sure to push the pedals.

Wm. Klee is taking the entrees and all those who are entering will please register with him so arrangements can be made for sufficient to help to take care of the small details. The course of the race will be announced later or to be exact in Friday's edition of the News.

Dwight F. Davis, Jr., son of the U. S. secretary of war and donor of the famous Davis cup in tennis, is one of the promising candidates for the freshman baseball team at Harvard this year.

HORNSBY GIVES WAY TO GRIEF

Mother Of St. Louis Cardinals' Manager Laid Away To Rest

AUSTIN, Tex., Oct. 14.—In a tiny graveyard tucked away in the bend of the Colorado river, tender hands late yesterday laid to rest Mrs. M. D. Hornsby, mother of Rogers Hornsby, manager of the world's championship St. Louis Cardinals.

She died here September 29, her last wish being that "her baby", Rogers, should stay with the Cardinals and lead them against the New York Yankees in the world series. He consented to this only after relatives had agreed to defer the funeral until conclusion of the diamond classic.

At the brief services at the grave Hornsby gave way to his grief. Tears streamed down his face and the hands, which for six years swung the most feared bat in the National League, trembled. With the Cardinals' manager were his older brother, Everett, of Tulsa, Okla., and his sister, Mrs. Maggie Mellown, of Fort Worth, Tex.

Player Award Goes To Burns

Cleveland First Baseman Voted Most Valuable Player In American League

JOHNNY MOSTIL SECOND CHOICE

(International News Service)

CHICAGO, Oct. 14.—George H. Burns, Cleveland first baseman, has been voted the most valuable player in the American League for the season of 1926.

Burns, with 13 years of major league service, was the choice of eight well-known sport writers engaged by American League officials to make the selection.

The balloting was practically unanimous in favor of the Cleveland first baseman. He obtained 63 points out of a possible 64.

This choice places the name of Burns on the American League honor roll along with the names of Ruth, Cobb, Speaker, Collins, Peckinpaugh, Sisler and Johnson.

John Mostil of the Chicago White Sox was the second choice of the award committee. He received only half as many votes as Burns. One vote behind Mostil came Herb Pennock of the New York Yankees. Then came Sam Rice of Washington and Harry Heilmann of Detroit with 18 and 16 points respectively.

The names of 26 players were considered by the award committee.

St. Louis Cardinals Make Stage Debut

ST. LOUIS, Oct. 14.—Three Cardinal heroes who last week were in the spotlight of world's series competition temporarily have transferred their activities to the brighter lights of the stage.

Grover Cleveland Alexander, the hero hurler from the broad stretches of Nebraska; Jim Bottomley, the idol of Nokomis, Ill., and Billy Southworth, are appearing in person the remainder of the week at St. Louis theaters. Alexander the Great appears on one downtown theater sign in letters that outshine the names of movie stars in the current attraction. The names of Bottomley and Southworth do the same at another. The stage debut consists only of a bow and a little speech.

Fair Star Takes Fairfield Handicap

NEW YORK, Oct. 14.—Fair Star, racing in the colors of the Foxcatcher Farms, made a runaway of the Fairfield handicap for two-year-olds, feature of a card at Laurel Wednesday that brought thrills and heavy winnings to the players of long chances. The Star horse, breaking on top, kept the lead throughout the mile run and had no trouble beating Buddie Bauer to the wire in 1:38 2-5. Bostonian was third. Bettors who saw a hunch in the "F" of Fair Star, Foxcatcher and Fairfax, were rewarded at the rate of $11.10 per $1 investment. Every winning horse at Laurel paid more than 3 1-2 to one.

May Trade Frisch For Dazzy Vance

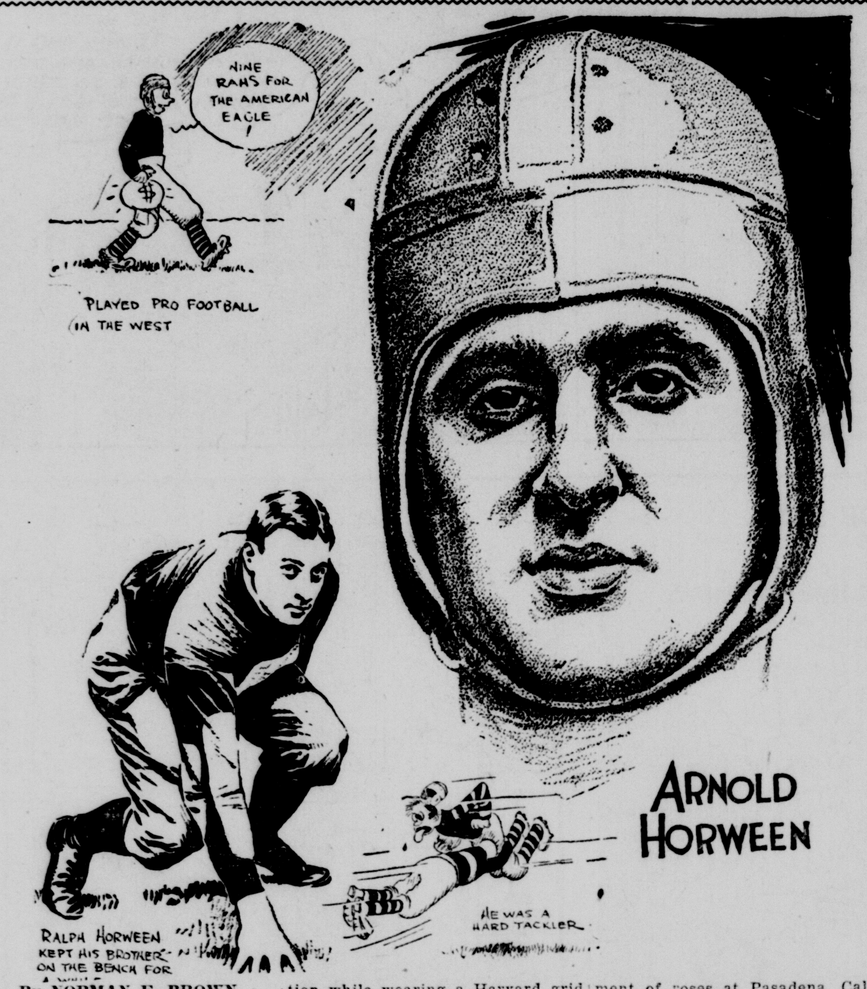
NEW YORK, Oct. 14.—In the near future Wilbert Robinson, president-manager of the Brooklyn Dodgers, will make an offer to John McGraw for Frankie Frisch. Robbie is more than eager to land the Giant infielder, and if it be true that McGraw has determined to trade Frankie, the Brooklyn club will go the limit to get him.

Robby would give Dazzy Vance for Frisch on an even basis. And if pressed he would throw in a young catcher.

A game between Harvard and McGill universities at Boston May 15, 1874, is believed to have been the first Rugby football ever played in the United States.

HE OUGHT TO KNOW HARVARD FOOTBALL

For New Coach Played Almost Every Position In His Day



By NORMAN E. BROWN

In a few weeks Harvard football officials, students, graduates and adopted sons will begin to form an opinion of the degree of success achieved by Arnold Horween in his first year as coach of the Crimson eleven. Horween took up the task this year after six or seven years of it had been enough for Bob Fisher.

One or two things are already apparent, anent Horween's policies and ideas. He is introducing new features in the team's play—features that smack of the west. This is not strange although Horween learned his college football at Harvard, for, after graduation, he migrated west and there learned western football as a professional player and coach of pro teams. The west plays more daring, open football than the east. This has always been true, since the game was opened up. However, Horween himself was a master line plunger and knows straight football therefore.

Ralph Drew Limelight.

Arnold was in a rather odd position while wearing a Harvard grid uniform. His brother Ralph rather dimmed his fame. Arnold entered Harvard in 1916 and starred as a back on the freshman team. Then came the war and it was 1919 when he returned to the peaceful pastime of plowing through a row of football players. Ralph, too, forgot football during the war and the fall of 1919 found them both ready for play. Ralph had won his rep as a fullback and was due to retain that position. Before the season had gone many weeks, however, the coaches shifted Ralph to center. This left a vacancy in the backfield. Arnold was used in the various combinations but never knew from game to game whether he would be holding down one of the backfield jobs or shoved into the line. This, Harvard men do recall, however. He weighed some 200 pounds and could handle his weight well. In addition to that he could kick. In fact it was his 45-yard boot that gave Harvard the punch to win the game with Yale in 1919.

Beat Oregon Eleven.

Later that season the crimson team played Oregon at the tournament of roses at Pasadena, Calif., and it was Horween who pounded the Oregon line to pieces and let Freddie Church thru for a touchdown, and then it was Horween who booted the point after touchdown. The final whistle found Harvard within a couple of yards of another touchdown, thanks to a series of rushes from the shadow of Harvard's goal to the two-yard line of the westerners. Horween, I am informed, carried the ball 17 times in that rush.

It was Horween, too, who battered "Bo" McMillin's Centre college crew to pieces and ended its winning streak that had extended over three campaigns.

Leaving Harvard, Horween went west to play pro ball, as recited. This was before the professional game drew enough national attention to worry the college officials. Later he coached "pro" outfits. That Harvard called him back to take charge of its grid squad indicates that the Crimson has not forgotten his greatness as a player—in fact realize it a bit more now than they did while he was a member of the Cambridge team.

Army-Navy Football Game Nov. 27 To Be Season's Big Social Feature

By COPELAND C. BURG,
International News Service Staff Correspondent

CHICAGO, Oct. 14.—When the Army-Navy football game is played in the west this fall for the first time in history—the two service school teams clashing in Chicago November 27—it will be the outstanding social event of the early winter season.

Distinguished visitors from all parts of the country will attend, sitting in special boxes for which Chicago millionaires have paid from $200 to $2500 each.

While the center of interest among the thousands of mid-western fans clamboring for tickets to the game is the brand of football to be seen in the legend-laden contest, hundreds of Chicago college girls may have other thoughts.

There will be more than 2500 handsome cadets and middies in the city when the game is played and one Chicago newspaper has actually appealed to the city's young women to refrain from "flirting too strenuously" with the boys from West Point and Annapolis. Appeal was made for the co-eds to be "dignified and lady-like."

Chicago, with its Great Lakes Naval station and whose citizens are keen for yachting and boating, may be partial to the Navy when the teams meet here.

In order to aid the middies in the cheering and singing many Chicagoans are practicing the famed "Anchors Aweigh," the outstanding football song of the midshipmen.

For more than 20 years this stirring song has inspired the Navy to victory.

"Anchors Aweigh" was written as an Annapolis class song in 1907. The music was composed by Charles Zimmerman, leader of the naval academy band at that time. The song is as follows:

"Stand Navy down the field,
Sails set to the sky.
We'll never change our course,
So Army you steer shy-y-y.
Roll up the score, Navy,
Anchors Aweigh.
Sail Navy down the field
And sink the Army,
Sink the Army Grey.

"Get under way, Navy,
Decks cleared for the fray,
We'll hoist true Navy Blue
So Army down your Grey-y-y-y
Full speed ahead, Navy,
Army heave to.
Furl Black and Grey and Gold
And hoist the Navy,
Hoist the Navy Blue."

Juniors To Meet Ben Franklin Team

The Juniors of the Senior High school and Ben Franklin Junior High school will meet on the gridiron Friday, Oct. 15, at four o'clock. This is the second class league game of the season and the followers of both teams are anxiously awaiting the time for the kick-off at Franklin field.

The Ben Franklin team has yet to be seen in action by the local fans, and so it is not known just how good they are, but if they are anything like the Franklin teams of former years the Juniors are in for a tough time when they tangle. The first two games for Franklin ended disastrously for them, as they were overwhelmed by Bessemer High school and Zelienople high school. These two schools boast of having strong teams and it was no disgrace for the Franklin eleven to lose, as they were greatly outweighed in both contests.

Coach Leroy Norton has been driving his charges hard during the week and they expect to make a strong comeback in the game Friday. The line-up that they will use to start the game is somewhat in doubt as yet, but Norton will have eleven men on the field who will give any team a scrap for the victory.

For the Juniors it will be the first game of the season. Pre-season training has been going on at Boyles field for the last three weeks and the quarters of the team have been moved to the Franklin stadium. Several varsity candidates have been added to their squad and regular practice has been held in preparation for the game. Among those who have been playing on the team are: Tom Mott, tackle; George Mike, tackle; Mike Kulich, end; George Thomas, fullback; Frank Christman, end; Elmer Montgomery, guard; Malcolm Woodworth, halfback; Clark McClelland, tackle; Donald Swietzer, center; Kenneth Dufford, guard; Harris, fullback; Sam Fisher, halfback, and Fred Jenkins, end. They have a wealth of material and are sure to offer a strong defense in the game, even though the offense will no doubt be a little slow.

No admission is charged for seeing these games and more people should take advantage of the opportunity of watching them, and there will be no disappointment, as the players always give all that they have when they are playing against another class. "P. H. Bridenbaugh" and "Scoots" Nelson will probably act in the capacity of officials, and so everything is O. K. for the opening whistle.

Penn State Leaves For South Bend Today

(Special To The News)

STATE COLLEGE, Pa., Oct. 14.—A hurried signal drill this afternoon will precede the departure of the Penn State eleven for South Bend, where the powerful Notre Dame team will be faced on Saturday. The Lion gridders are slated to leave for Tyrone at 5 o'clock this afternoon and the student body is planning to give them a rousing send-off from Varsity hall.

Penn State leaves for its first important game better fortified than had been anticipated a week ago. While Johnny Roepke, triple-threat back, and Barney Slamp and George Delp, end, are still out with injuries, both Captain Ken Weston, end, and Jack Filak, veteran tackle, are ready for duty against the Rockne men. Neither is likely to start the game Saturday but both are sure to be needed.

The last hard practice of the week took place on Tuesday and the coaches expect to have the team rested up and ready to go at top speed on Saturday. Penn State will have to play wide-awake football to have a chance against Notre Dame's veteran combination.

The stormy portal is so named in allusion to St. Peter as it seems to walk on the sea.

Varsity Swamps Scrub Eleven

New Castle High Gridders Down To Intensive Training For Butler Game

TURK MAY GET VARSITY BERTH

The New Castle High varsity team in the scrimmage session held at the Franklin field on Wednesday afternoon swamped the scrubs under a terrific score in a practice that lasted for over an hour.

The second team was unable to stop the thrusts of Harper, Sillman and Smith with any degree of effectiveness and were pushed from one end of the field to the other by the varsity members.

Earl Turk called signals on the second team and handled the team like a veteran. It would not be surprising should the popular Mahoningtown youth see service in the Butler game. Turk was declared eligible a few days ago but prior to that time had been working out with the team and is in fine condition. Due to his experience last year he is a valuable man on the offensive end.

Coach Bridenbaugh gave the varsity men a few new plays yesterday and they are expected to produce results in the Butler High game Saturday.

Reports from Butler say that Coach Wiggins' team are looking for a victory over New Castle High this season. Mars defeated Butler last week 6 to 0 so that the Soap Miners will have to improve considerablet before they realize a New Castle victory.

Jack Sharkey To Challenge Tunney For Title Fight

(International News Service)

NEW YORK, Oct. 14.—Gene Tunney's newly won laurels will not be permitted to remain with him unchallenged for long. Johnny Buckley, manager of Jack Sharkey, made this known today when he announced that he would go before the state athletic commission on Tuesday and file a challenge on behalf of Sharkey for the world's heavyweight title.

Sharkey qualified as a logical challenger on Tuesday night when he forced Harry Wills to foul him in the 13th round to escape the ignominy of losing the decision.

Pete Reily, manager of Jack Delaney, light-heavyweight champion, also issued a sweeping challenge today to Tunney, Sharkey, Wills and Jack Dempsey.

Neale To Manage Clarksburg Team

(International News Service)

CLARKSBURG, W. Va., Oct. 14.—Earle "Greasy" Neale, coach at West Virginia university and former Cincinnati baseball player, has been signed to manage the Clarksburg Middle Atlantic league club next season, club officials announced today.

Amateur League Sends Another Star to Majors

Frankie Loftus, who got his start in the same amateur circuit in the mining regions of Scranton, Pa., that produced Steve O'Neill, Bucky Harris, Mike McNally and other stars, goes to the Washington Senators for a trial next spring. He's a pitcher and has been with New Haven.

Westminster Athletes Of Other Days Had No Present Benefits

(Special To The News)

NEW WILMINGTON, Pa., Oct. 14.—The present day college football player, receiving respect bordering on hero worship with his opportunities to receive an education with practically no outlay of money, is in a utopia in comparison with college gridders of the old days, according to an investigation by a Westminster College student, seeking material on the ways and means of a student of former days.

His disclosures reveal that former Westminster gridders bought their own equipment, their letters, paid their tuition and rode oftentimes as far as 50 miles in a horse drawn vehicle to play a game. The faces of the gridders in those days were more often than not decorated with long whiskers, making one look more like a Dutch farmer than a present day collegiate youth.

No coach was hired for many years, the captain being the sole boss and instructor of the team. The field used at Westminster was located at the rear of the present Neshannock Hotel. Each man had charge of his own equipment as he bought and paid for it himself. As for a shower, the Westminster athlete of other days filled a metallic tub and abluted himself amidst great splashing in his own room. All honor for the college was free gratis. Athletes and students alike paid their own tuition and those earning letters were permitted to buy them.

The teams in spite of the lack of facilities matched such opponents as Pitt and Penn State, the games being played on a home and home basis. The longer trips were made by rail while the shorter jaunts to Pittsburgh and Waynesburg were chiefly by horse and wagon.

"Brick" Muller Looms As Rival For Grange

By COPELAND C. BURG
International News Service Staff Correspondent

CHICAGO, Oct. 14.—Sun-kissed "Brick" Muller, the former University of California star, is looming as a genuine rival of "Red" Grange in America's professional football ranks.

Wide interest in Muller and his Los Angeles Nationals or Buccaneers has been shown in early season play of the pros.

Muller is the stocky California end who made history on the slopes of the Pacific in 1921 when he forward-passed to victory the Golden Bear eleven over the powerful Ohio State team.

The game was played in Pasadena's poinsettia-decked Rose bowl and when Muller was through throwing 50-yard passes the Bears had hung up a 28 to 0 win.

Five years have rolled by since Muller was in his prime but he has kept in condition to some extent by playing club football on the coast. He also has been active as a coach since he graduated at Berkeley and his knowledge of the game is thorough.

With Muller is "Tut" Imlay, the former University of California halfback, a sensation in coast ranks in recent years. He also has another California back in Young, and Maul, fullback, formerly played at Berkeley.

Nolan and McArthur, the Los Angeles guards, played their college days at Santa Clara university, the California school long noted as a producer of star football players.

Newmeyer, Maul and Hufford and other former Californians are with the Muller outfit.

Football Notes

(International News Service)

PITTSBURGH — Coach Jock Sutherland expects his Panthers to make a much better showing against Colgate next Saturday than in previous games. They have shown much improvement in practice this week, he asserted. The Colgate squad arrives here tomorrow.

PITTSBURGH — Carnegie Tech squad has shown weakness on offensive play and their mentor, Coach Waddell, will give them practice along that line today and tomorrow to be ready for their hard game with Washington & Jefferson Saturday.

STATE COLLEGE, Pa.—Penn State's gridders are all ready for their clash with Notre Dame at South Bend Saturday. Coach Bezdek will give them only a short workout before they leave this afternoon for Notre Dame.

MEADVILLE, Pa. — Allegheny college eleven is perfecting forward pass attacks and defense. Reports reaching here state that Bethany, whom they meet in the Erie, Pa., stadium Saturday is strong at the aerial game, also.

Harry Wills Defeat Ends Ring Career

Jack Sharkey Takes Wills' Place As Tunney's Probable Foe

NEW YORK, Oct. 14.—Jack Sharkey of Boston today stands on the doorstep of fistic fame as Harry Wills passed into the background of the heavyweight picture with ring earnings estimated by boxing men at nearly half a million dollars.

"It guess I'm through," the big stevedore said, blaming his unexpected defeat by Sharkey on a strained back, coupled with his long absence from the ring. His friends, however, pointed to the fact that he would be able to retire as the second richest man in American pugilism, yielding only to Jack Dempsey in the matter of accumulating wealth.

For what was probably his last big bout the Senegambian received $50,000, slightly more than twice the purse of his conqueror, Sharkey. Total receipts of the fight were announced today as $133,514.70.

Hornsby No Master Mind In Base Ball

By NORMAN E. BROWN.

Rogers Hornsby's successful management of the St. Louis Cardinals during the 1926 campaign and through the seven games against the Yankees in the world series carries considerable significance.

It proves to my way of thinking that most of this "master-mind" talk in baseball or any other sport is 75 per cent bunk.

Hornsby never has claimed to be a master mind. His brief but pointed utterances since the Cardinals came in to their own further disproved any ideas that he might claim to be one.

Discussing the matter of managing his ball club, Hornsby made clear the principle along which he worked.

"I simply told the boys that I was manager and that I was going to be the manager. All I asked of any of them was that they play good baseball. If they failed they would have to answer to me."

There lurked in the brief but concise statement the suspicion that he felt confident of being able to take care of himself when they were asked to "answer."

When Grover Alexander, discarded as a dissipating old veteran by the Chicago Cubs turned in a few days for Hornsby and began pitching baseball the world wondered as to the reason.

When Grover won his first victory in the world series—showing perfect form and no efects of any possible straying from the path of rectitude—Hornsby was asked by what superhuman method he had turned Alec back into a winning hurler.

Hornsby's reply:

"I just told Alec 'I'm no reformer.' All I want you to do is pitch. You can do anything you want between times.'"

Consternation again perhaps among the "master minders." No mighty problem there as far as Hornsby was concerned. Just a reasonable attitude.

When the Cardinals lost during the world's series and the pitiless spotlight of publicity was turned on the whole team, Hornsby stepped out and told the world quite plainly a logical reason for the loss of the game—naming the players and the erors they made.

There again he hit the master minders. No discussion of how an unusually light strata of air above the center fielder's head caused the ball to perform weird gyrations of how a red hat in the grandstand confused the fielder. The aforesaid fielder simply failed to play baseball in big league style. And Hornsby said so.

Hornsby makes no effort to throw an air of mystery or legerdermain around the managing of a big league club. He proceeds on the basis that every man who reaches and remains in the big show should be able to conduct himself to his own advantage—which includes playing his best baseball.

Hornsby's modesty is perhaps the only trait which tends to prevent him from making a clean breast of his theories. It is self evident however that he tops off a sane sort of leadership with a spirit and an ability which sets all his players an example. They find themselves trying to match him bat for hit, play for play, game for game.

That after all is a much better way of getting the best out of a team than delving into higher mathematics, philosophy and bunko.

Ohio State Favored To Defeat Columbia

(Editor's Note: This is the first of a series of a football article by Davis J. Walsh, dealing with the leading teams of the east and a few of the middle western elevens who will appear in this section. Other articles of the series will appear at regular intervals.)

BY DAVIS J. WALSH
Sports Editor Internat'l News Service

NEW YORK, Oct. 14.—It seems to be generally understood that one doesn't drive in that run from first base with a spectacular base on balls nor score a knockout by making the other gent miss. Therefore the writer is disposed to believe that Columbia University will not be greatly irritated on Saturday if it doesn't finish worse than second to Ohio State, the first big ten team ever to show in New York.

The official attitude at Columbia today was strictly a defensive one and the only thing they regretted was that they couldn't say the same for their football team. The latter, it seemed wasn't strictly anything in particular.

Karow Threatens

"We are concentrating on stopping Karow" was Charley Crowley's summation. "He tore our line apart last year, forced us to play seven men up and left us without an adequate defense against the passing game. We are hoping to perfect a defense that will allow us to play six men on the line and let the centre rove."

What Crowley might have said was that he was trying to accomplish two ends and that neither of them were easy.

He hopes to stop a good line plunger with a set of inexperienced forwards and at the same time use a running attack of his own inside and outside of tackle He happens to have two fair plunging backs in Madden and Sesit but they will need to be better than that to click with any degree of regularity behind a green line.

As far as the Columbia-Ohio State affair is concerned I think the boys on the heights are prepared to throw that one out and start all over again. Columbia is not the team it was last year and the Buckeye is better; in fact it is said to have assembled its best array since the champion outfit of 1920. Incidentally that superior Columbia team of 1925 lost to that unrepresentative Ohio State eleven by 9 to 0. You can figure that one up without using the fingers.

Three Regulars.

Only three 1925 regulars will start the game for Columbia—Madden and Sesit in the backfield and Brady at end. The others were substitnutes or worse last year Pease, quarterback, is gone. So are Wagner, a fine end; Kirchmeyer, a back and Schimetitch, Wiber, Aulick and Raphale. Some of these worthies may not have been so hot but at least they had big game experience.

The only forwards in the present squad who can say the same are Reynolds and Alkoff and they serve to give the right side of the line a rather superior aspect, with Brady playing right end. The others French, center; Shaw, left guard; Kerrigan, left tackle and Furey, left end, never have faced an outfit of Ohio State's speed and general class.

I can imagine that the boy's education will be somewhat amplified when Otto Hess begins to roam around through the line, Karow comes plunging in and Marek and Eby are turned loose on the ends.

Columbia Lacks Class.

Crowley, a product of rather contradictory systems at Harvard and Notre Dame seems to be a confirmed conservative and I don't know that I blame him in this case. One doesn't feel the urge to break a neighbor's window with only a sponge available.

The injury to Empringham necessitated a backfield shift and, with Norris at fullback, it is likely that Columbia will employ the old Harvard idea of kicking early and often and waiting for the break, if any. Rieger, a fast man, will be used at quarterback but with the huddle system i operation it is possible that Captain Madden will share the burden of generalship or whatever it is the boys kid themselves about.

It is possible the writer has given the impression that he doesn't think Columbia is much of a football team. It isn't.

Myra Gray Wins Cesarewitch Race

NEWMARKET, England, Oct. 14—Myra Gray, owned by J. Davis, won the Cesarewitch, the great autumn handicap, run here Wednesday.

H. L. Cottrill's Miss Sport was second and H. Stobart's Templestone was third in a field of 24. The race, over 2¼ miles, was the subject of much betting, as the new betting tax becomes operative November 1.

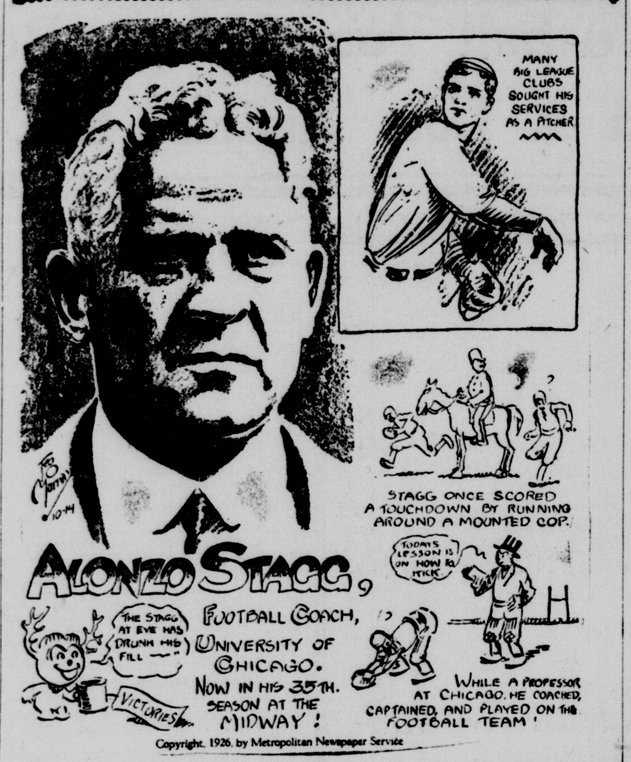
Myra Gray is a bay mare by Ambassador out of Lady Canny.

Brady Leads In Metropolitan Event

SALISBURY PLAINS, N. Y., Oct. 14.—The qualifying round of the first metropolitan professional championship ended last evening in pitch darkness. An hour earlier ol' Mike Brady, veteran of the Wing Foot club of Mamaroneck, had established himself leader of the day's play with two great rounds of 71 and 73 for a total of 144.

This figure led that of Bobby Cruikshank of Purchase, N. Y., by a single shot.

Chicago's "Old Man." By Feg Murray



Copyright, 1926, by Metropolitan Newspaper Service

Phrases such as "mighty force in character building," "Maker of Men," "the finest product of American athletics," "lovely personality and rugged character," are so often used in connection with the name Alonzo Stagg that many people are wont to forget that besides being a splendid gentleman, he is also a darn good football coach. While it is true that Alonzo A. Stagg would rather help to develop the young men he comes in contact with on the University of Chicago campus into fine, clean, upright athletes, he also gets quite a kick out of moulding them into a powerful football team that can beat its opponents in fair battle, and he does this very thing surprisingly often, when you consider the material that he gets.

And there are other sides to the "Old Man's" career too. Let's not forget how, in site of working his way through Yale, sometimes living on as little as 25 cents a day, he became the most famous athlete of his time. When Stagg was graduated in 1888, he had the reputation of being an unbeatable pitcher and a fine track athlete, and Walter Camp chose him as end on his first all-American team.

Young Alonzo Stagg started out to be a minister, being graduated from the International Y. M. C. A. college in 1892. He has been coach at the University of Chicago ever since then, and has four times been one of the coaches of the United States Olympic track team. In 1912 Stagg was a presidential elector of the Progressive party. Besides all that, he is a very good golfer, though 64 years old, and was one of the chief founders of the largest golf club in the world, the Olympia Fields club near Chicago.

Coach Stagg's men play Pennsylvania in Philadelphia this Saturday. If the "Old Man" can inspire his team to fight as they did in the Illinois game of 1924, they should give Penn a terrific surprise. That was the game in which a supposedly much weaker Chicago team held the great Grange and his mates to a 21-21 tie.

Feg Murray Says—

George Von Elm, the new amateur golf champion, is also very clever with his fists, and has scored many knockouts in ring tournaments. The expression, "He dropped a six-footer for a birdie two," applies to both his putting and his boxing.

Yale's New Polo Field Will Complete World's Finest Group Of Playgrounds

(International News Service)

NEW HAVEN, Conn., Oct. 14.—With the completion of an outdoor pony polo field the gigantic sports plant of Yale University is now reaching its final stage, in which Yale will probably have the finest group of playgrounds of any university on earth. The group is to be known as Walter Camp Field, in memory of the father of American football and perhaps today Yale's best known graduate.

The pony polo field is to be known as "Phipps Field" in honor of the New York family which gave the money for making the field possible. Phipps Field will first be used next fall, when its grandstands capable of seating several thousand peoplpe, probably will be filled to capacity, since Yale possesses nearly all the American pony polo honors possible.

Walter Camp Fields include the noted Yale Bowl and five other football fields, including one exclusively for freshmen, beside a large space on which class football games are played; five baseball diamonds with varsity and freshmen fields; a large field for track games; two soccer fields, 28 tennis courts with more in the making; rifle ranges, a cross-country run course and one of the finest 18-hole golf courses on earth that can be expanded if needed to supply two more equal courses.

Within the group are the Lapham Field House, gift of a Boston alumnus of Yale; Yale artillery armory, where indoor pony polo is played; various grandstands now of wood to be replaced by concrete affairs; and ticket houses. The golf course, somewhat removed from the other fields, has its own handsome clubhouse, built log cabin fashion.

Walter Camp fields are about two miles from the nearest university, but are connected by a belt line bus system operated for students' benefit with the University athletic offices on the old campus. Another bus line operates to the golf course a mile west of the Bowl.

Tommy Loughran To Meet Burke

(International News Service)

CHICAGO, Oct. 14.—Tommy Loughran, Philadelphia heavyweight and one of the host of potential challengers for the crown of Gene Tunney, is due in Chicago today to complete training for his 10-round bout here Monday with Martin Burke of New Orleans.

Loughran will do his boxing and bag punching at a local gymnasium and his road work in Lincoln Park. By virtue of his showing against Jack Dempsey while acting as the latter's sparring partner, the Philadelphia fighter is rated as one of the foremost candidates for the heavyweight title.

Burke has been here since Tuesday and is reported in first class shape for Monday's setto. Altho Marty is a big fellow with a powerful punch, Loughran is favored to whip him.

SPECULATE ON BUS LINE MOVE

Reading Company's Project Arouses Conjecture At State Capital

(From News Bureau, State Capital)

HARRISBURG, Oct. 14.—Officials here are speculating on what steps the Reading company plans to take in its announcement that auxiliary motor bus lines would be placed in operation. The other day Governor Pinchot announced that he had refused to approve the applications for charters for the Reading Transportation company and the Pennsylvania General Transit company, motor subsidiaries of the two big steam carriers.

The public service commission some months ago approved the charter requests but final action rested with the governor and he acted unfavorably. He termed the move of the two railroads to enter the bus field as a step toward getting a monopoly of that phase of transportation. Just what steps the Reading will take following the announcement of President Dice that buses would be operated, officials here are unable to say.

At present the commission has pending before it several applications made by Reading officials for a number of lines. These would have been turned over to the bus company had a charter been granted. The Pennsylvania through similar action has received permission to run several routes in isolated places. There is a possibility that new applications might be made after January when another governor is in office.

Purchase of existing bus lines is seen as a possible solution. Some close to the commission say that body is not inclined to permit granting certificates for the rival routes and some interests have built up a large business in the bus field. The people who are trying to get the railroads started in the motor bus game may now negotiate for these individual lines and not try to start competitive service.

more food Space

FACTS
This is one of the reasons why there are more Frigidaires in use than all other electric refrigerators combined. Additional reasons are named in other advertisements.

FRIGIDAIRE provides greater food space than other electric refrigerators of equal size. This is because the highly efficient and economical frost coil, an exclusive Frigidaire feature, occupies less space than the brine tank previously used, permitting greater food storage capacity in a cabinet of any given size. Larger supplies of perishable foods can be carried at one time.

Greater food capacity, quieter operation, freedom from vibration, lower operating cost, a wider range of models, the more precise engineering and manufacturing methods of General Motors, greater beauty of design, proven dependability in service—these are the things that have made Frigidaire the choice of the overwhelming majority of users of electric refrigerators.

Come to our display room, telephone, or mail coupon below for complete information.

Frigidaire Offers More for Less

IN the Studebaker Standard Six Custom Sedan, One-Profit facilities achieve a new victory over custom car costs—set a new standard of value in the moderately priced field.

Outside: a low-swung steel body, full-visioned for extra safety, with the distinctive contour of a smart custom creation and a lustrous duotone-lacquered finish.

Inside: the custom richness of Chase mohair upholstery, exquisite broadlace trim and Butler finish hardware in a pleasing harmony of tasteful color tones.

According to the power rating of the Society of Automotive Engineers, the Studebaker Standard Six Custom Sedan is the most powerful car of its size and weight in the world. Its quiet L-head motor—the type pioneered by Studebaker and now adopted by over 70% of motor car makers—has a big, fully-machined, dynamically balanced crankshaft to reduce vibration to a minimum.

This is a feature shared by Studebaker with only a few of America's costliest cars. It costs Studebaker $600,000 extra every year to provide it. Only One-Profit manufacture makes it available in a car at this price.

Over $100 worth of extra equipment is included in Studebaker Custom Cars without extra cost. A new feature, found in no other car, is the Studebaker no-draft ventilating windshield, which admits plenty of fresh air and excludes moisture, even in the heaviest rains.

This is the car that invites comparison with cars costing two to five hundred dollars more. See it today.

HIGH LIGHTS OF HISTORY

Registered U. S. Patent Office.

Seizure of Federal Forts.

by J. CARROLL MANSFIELD

© McClure Newspaper Syndicate

EARLY IN 1861 MANY SOUTHERNERS THOUGHT THE NORTH WOULD NOT TAKE UP ARMS TO PRESERVE THE UNION. OTHERS, AMONG THEM JEFFERSON DAVIS, BELIEVED THE CONFEDERATE STATES WOULD HAVE TO FIGHT A LONG WAR TO ESTABLISH THEIR INDEPENDENCE. TO BE PREPARED FOR SUCH AN EMERGENCY THE SOUTH BEGAN TO RAISE TROOPS FOR DEFENSE.

AFTER SECEDING, THE SOUTHERN STATES SEIZED AND OCCUPIED THE FEDERAL FORTS, ARSENALS AND NAVAL STATIONS THAT LAY WITHIN THEIR BORDERS. ONLY A FEW WERE HELD BY THE GOVERNMENT, THE MOST IMPORTANT OF THESE BEING FORT SUMTER AT CHARLESTON, SOUTH CAROLINA, AND FORT PICKENS AT PENSACOLA, FLORIDA.

PRESIDENT BUCHANAN PROTESTED MILDLY AGAINST THESE SEIZURES, BUT TOOK NO STEPS TO PREVENT THEM. HE SEEMED ANXIOUS TO AVOID AN OPEN BREAK, APPARENTLY WITH THE PURPOSE OF WARDING OFF HOSTILITIES UNTIL HE SHOULD HAVE PASSED RESPONSIBILITY TO LINCOLN, THE PRESIDENT-ELECT.

THE ONLY EVIDENCE OF A FIGHTING SPIRIT DISPLAYED BY THE BUCHANAN ADMINISTRATION WAS AN ACT OF DIX, SECRETARY OF THE TREASURY, WHO WIRED AN OFFICER ABOARD A REVENUE CUTTER AT NEW ORLEANS, "IF ANY MAN ATTEMPTS TO HAUL DOWN THE AMERICAN FLAG, SHOOT HIM ON THE SPOT!"

TOMORROW—FORT SUMTER.

N. Y. STOCKS

(International News Service)

NEW YORK, Oct. 14. — Railroad stocks and a small number of the industrials and specialties continued their rally at the beginning of trading today, principally as a result of short covering and professional buying. The forward move was limited to the stocks which showed their ability to draw away from the market in general near the close of yesterday's session.

Bulls in General Motors, Allied Chemical, Timken and one or two of the rails marked up prices a point or two at the expense of the shorts. These stocks drew the bulk of the spotlight, Timken, a newcomer to the active list, rushed up to, 73½, completing a 10 point gain since Wednesday noon. General Motors at 154½ showed a 6 point advance on the move, while Allied Chemical was up 6 and Cast Iron Pipe up 4.

There were few if any important developments in the industrial situation, and a better feeling of confidence was expressed in money market conditions, with the call loan rate back to 5 per cent and funds reported offered in the outside market at 4¾ per cent.

Six Arrested In "Charity" Swindle At Philadelphia

Allege Details Of Gigantic Ring Will Be Revealed In Court

(International News Service)

PHILADELPHIA, Pa., Oct. 14.—With arraignment today of six men there will be revealed in Central Police Court, detectives said the details of an alleged $2,000,000 charity swindle in which prominent residents of the city have been mulcted of more than $400,000 through the staging of "benefit" shows.

The men who will face Magistrate Holland, said they are: Harry Zile, 27, Stewart Schweitzer, 27; Jesse Connelly, 41; Herbert Crowhurst. 25; Daniel O'Donnell, and Nelson T. Shaw, all of this city.

They are charged with conspiracy to cheat and defraud, obtaining money under false pretenses and forgery, police said.

Three suit cases crammed with tickets and lengthy "sucker lists" of prominent men and women of this and other cities who have been prominent in charitable work were said to have been found at the headquarters of the men.

Sights Bear In Barnyard As He Looks After Pigs

D. B. Reynolds of the Pulaski road, on going out to see that his pigs were all right on Tuesday evening, and while carrying a lantern on account of the darkness, came upon the bear, that has been keeping things moving in the northern part of the county in the past few weeks.

He first noticed the bear as it ran away from the barrel in which Mr. Reynolds keeps the feed for his pigs and it went into a corn field at the side of the barn.

On his return to the house, a considerable distance from the barn, he reported what he saw and the young men of the place went out to seek the bear but could find no trace of it.

Connie Seeks Freedom From Mate; Is Latest Rumor To Stir Filmdom

Central Press Photos

CONSTANCE TALMADGE

By MARGERY PICKARD
Central Press Staff Correspondent.

NEW YORK, Oct. 14.—Will a "friendly divorce" terminate the marriage of Constance Talmadge and Captain Alastair William MacIntosh? Friends of the screen star here believe a permanent separation is near since Connie has departed for Hollywood and her husband is about to return to his native England.

Some six months ago Connie surprised her friends by marrying the Englishman, whom she had met four years before in Paris. Just when they were momentarily expecting Buster Collier to lead her to the altar, Connie said "Yes" to MacIntosh

Connie had no time for a honeymoon since she was making a picture then. Months later she went abroad with her husband to meet his kin. All was rosy and Connie even danced with the Prince of Wales. Since her return to this country rumors of a separation have been current.

When Connie discovered that her first marriage (to John Pialoglou, a wealthy Greek) interfered with her screen career she separated from him in a most friendly fashion and obtained a divorce while insisting they were on the best of terms even though no longer man and wife.

Will her separation from MacIntosh be as friendly? Her friends here are inclined to believe it will. Constance is perfectly willing to remain friends, there evidently haven't been any quarrels or hard feelings, but single blessedness is to be preferred when one has a career, she opines.

TO REPRESENT NEW CASTLE AT CANAL HEARING

A delegation from Beaver county, including Major Leaf and others interested in the proposed canal through this district, was present at the meeting of the board of directors of the Chamber of Commerce, held at noon today at the Elks' Club.

The visit of the delegation was for the purpose of urging the importance of a representative from this city being present at the hearing, to be held concerning the proposed Lake Erie-Ohio River canal at Washington, D. C., on Friday.

State Senator George T. Weingartner was appointed to make the trip and attend the hearing for the importance of conveying the interest of this city in the project.

Woman Held In Death Of Girl From Operation

(International News Service)

UNIONTOWN, Pa., Oct. 14. — Margaret Cullen, 68, of Munhall today faces charges in connection with the death of Margaret Vrhovac, 15, who died Sunday night from peritonitis. Death occurred in Brownsville.

Mrs. Cullen was held responsible for the illegal operation which brought about the girl's death.

Mrs. Helen Zunic, of Edna, near Irwin, told the coroner's jury which met last night that she and her husband took Margaret to the Cullen home, after the girl had declared that the only solution to her troubles lay in an illegal operation. Mrs. Zunic said that both she and the girl's parents urged a wedding but that Margaret would not consent.

The findings of the jury have been certified to Allegheny County authorities where official charges must be filed as the operation took place in that county.

Over 1600 Tickets Sold For Cathedral Dinner; Day's Report

The community dinner at the Scotish Rite Cathedral on October 29 will be one of the outstanding events in the history of the city. Reports received at the meeting of the board of Directors of the Chamber of Commerce held today, were in effect that 1,600 tickets have already been sold for the event and that at the rate they have been selling there will be practically what means "standing room" only on the night of this city's greatest get-together effort.

San Francisco Man Sets New Record For Cross-Country Travel

By MILLER HOLLAND
International News Service Staff Correspondent

SAN FRANCISCO, Oct . 14.—A gentle rap at the present-day transcontinental service given by the railroads was handed out here the other day by Louis B. Miller, 51. San Francisco business man, who recently shatterel all previous automobile records from San Francisco to New York.

"There is no reason in the world why the railroads should not transport passengers across the country in from one to two business days less than at present", Miller said.

"Why", he continued, "if we had the same advantages of right-of-way, smooth roadbed and easy grades that the railroads have, we could travel across the country in 60 hours.

"As it is, we made the trip in 83 hours and 12 minutes, which is ten and a half hours faster than the fastest train schedule.

"Present train schedules are too infernally slow."

John E. Wieber, Portland, Ore., automobile dealer, accompanied Miller on his record-breaking trip, alternating with him at the wheel.

The machine used by Miller and Wieber was just an ordinary stock roadster model.

Hawaii Excited Over Politics

Local Campaigns In Hawaii Never Lack For Candidates

WORLD CRUISERS VISIT HONOLULU

By JOHN F. STONE
International News Service Staff Correspondent

HONOLULU, Oct. 14. — The Hawaiian people take to politics as a duck takes to water, a fact that is borne home to the community every other autumn as the Republican and Democratic campaigns for legislative and municipal offices begin warming up in preparation for the November elections.

From one end of the territory to the other the Hawaiian people turn out—men, women and children, attending the huge outdoor meetings night after night and showing far more political zeal, let it be said, than do their white brothers and sisters.

Local campaigns never lack for candidates, and this year the number of entries in the primary race has been exceptionally large. To glance over the list, it seems as if almost everybody or his brother is a candidate for something.

One of the most interesting features of the election campaigns in Honolulu is the "soap box" at King and Bethel streets, where candidates on both sides gathr at noon each day to tell why they should be elected to office. J. K. (Two Gun) Mokumaia, popular rent car driver and proprietor of the only strictly Hawaiian restaurant in the city, presides over the ancient altar of civic rights. Mokumaia is a huge, but graceful man—a perfect type of the old Hawaiian that is becoming all too scarce in these parts. A lauhala hat, fully three feet across the brim, tops his mighty form in pleasing proportion and gives ponderance to his words.

"Two Gun" presides with much dignity. He never takes sides in an argument, but he sees that every candidate has a square deal. "Have a heart give this fellow a chance" he will say when some heckler starts to bother a speaker.

Hawaiian, whites, with tourist visitors scattered here and there: Chinese, Japanese, Portuguese and numerous mixtures make up the soap box crowds, and for the most part they are a laughing, good natured set, always willing to give the speaker his due.

Now and then some speaker attempts a plea based on race prejudice, but Mokumaia nips him before he gets under way. "Have a heart," he will again admonish, "We all American in Hawaii."

Mokumaia got his nickname of "Two Guns" some years ago when two highwaymen attempted to hold him up on a lonely bit of road between here and Pearl City peninsula. He flashed two big revolvers on the bandits and brought them into jail.

Six round-the-world cruise ships will call at Honolulu this autumn and winter for two and three day stays. The first of these is the Holland-America liner Ryndam, due here on October 19 with 450 students on a seven months "floating university cruise. Next will be the Cunard liner Carinthia, which will be in port November 7 and 8 before clearing for Yokohoma. The Belgenland of the Red Star line will be in Honolulu from January 8 to 10 and will be followed by the Cunard liner Franconia, due here February 3, sailing from here for Apia, Samoa. The California of the same line will be in port the following week for two days before sailing for Japan. On the last leg of her 27,000 mile cruise, the Canadian Pacific liner Empress of Scotland will arrive from the Orient on St. Patrick's day, March 17 and will be in port two days.

APPROVE BRIDGE WEST OF WARREN

By GEORGE H. MANNING.
(Washington Correspondent of the News.)

WASHINGTON, D. C. Oct. 14.—The war department today approved plans for a bridge to be constructed by the State Department of Highways of Pennsylvania across the Allegheny river five miles west of the city of Warren.

Congress authorized construction of the bridge last spring by passing a bill introduced by Representative Harris J. Bixler of Johnsonburg. War department engineers were required to approve plans as to structural strength and interference with navigation. The bridge will form an important link between Erie and the Pennsylvania forest reservation.

ODD FELLOWS TO DEDICATE HOME AT MEADVILLE

Following a parade, Perry A. Shanor, past grand master will make the dedicatory address.

EXPERIENCE OF WESTERN GIRL

Found Cannery Work Too Tiring

The fertile valleys of Oregon help to supply the tables of America. This is possible thru the magic of the humble tin can.

In one of the canning establishments, Julia Schmidt was employed. It was complicated work because she did sealing and other parts of the work. It was strenuous work and she was not a strong girl. Often she forced herself to work when she was hardly able to sit at her machine. At times she would have to stay at home for she was so weak she could hardly walk. For five years she was in this weakened condition.

She tried various medicines. At last, a friend of hers spoke of Lydia E. Pinkham's Vegetable Compound and Miss Schmidt gave it a trial.

"Everyone says I am a healthier and stronger girl," she writes. "I am recommending the Vegetable Compound to all my friends who tell me how they suffer and I am willing to answer letters from women asking about it." Julia Schmidt's address is 652 North Front St., Salem, Oregon. For sale by all druggists.

Here And There Over The State

SHAMOKIN—The much mooted check-off system, bone of contention between miners and operators is expected to receive serious and detailed attention when the biennial convention of the United Mine Workers of America meets here this month.

LEWISTOWN—Kenneth Kline, 14-year-old Lewistown lad, who has confessed to stealing seven automobiles in this section of the state, is at liberty under $100 bail for appearance in court the latter part of this month. The owners of the seven cars, having had their machines returned to them, are desirous that the lad be "given another chance." Punishment will be in the hands of Judge Thomas F. Bailey of the county court.

GETTYSBURG—A bequest of $5,000 has ben made to Gettysburg college by the will of William C. Stoever of Mt. Airy, Pa., who was graduated from the battlefield institution in the class of 1868. Stoever died recently at his home. The money will be used to equip and maintain an alcove in the new library at the institution.

CLARION—A new gas field is being developed in Clarion county, according to gas men. The new section in Mill Creek township already has ten well reported to be good producers. The field borders the Clarion river and the wells are in sands that promise long life according to gas company officials.

WEST CHESTER—The State Historical commission and the Chester County Historical society plan to unveil a bronze tablet and marker on the farm of William H. Walker near the New Gardner-Kennett township line October 23 The tablet will commemorate the grant of about 14,500 acres of land by William Penn his daughter Letitia and his son Wililam.

DONORA—After ebing idle for 56 days a blaze in the rear of a butcher shop here called out the local fire department. Little damage was done it was reported.

PITTSBURGH — The steamer William G. Clyde of the Carnegie line is enroute to New Orleans and intermediate points with the first tow of steel products of the season, steel men said. The tow consited ot ten steel barges loaded with steel and two barges loaded with fuel. More shipments in this manner are expected soon.

GETTYSBURG—Adams county has begun the gathering of a bumper apple crop. Chester T. Tyson of Flora Dale, one of the largest apple growers in the county has predicted that a million barrels of apples will be harvested in the county this fall. This crop which will have a value of approximately a million and a quarter dollars will be 50 per cent greater than last year's crop and 30 per cent greater than the largest crop ever produced in Adams county.

The Canadian Trades and Labor Congress has decided to meet next year in Edmonton.

The Odds
are against young men who are living this month on next month's pay.
Some of these days you will run into a real opportunity which requires a little cash to handle, and, as the saying goes, you will be "out of luck."
If you go to the trouble of investigating the early careers of men who are in prosperous circumstances today, you will find nearly always that they had a Savings Account instantly ready to take advantage of opportunities when they came.
Don't think this is mere preaching. It is an absolute truth, and young men who fail to heed this advice will live to admit the error of their careless spending.

Discovers Old Castle Of English Bluebeard

SISSINGHURST, Kent, England, Oct. 14. — Dr. Charles H. Beard, antiquary, has discovered a sixteenth century Tudor castle here complete, with moat, secret chamber, murder story and ghost legend of an English Bluebeard. The castle was built in 1550 by Sir John Baker, a Chancellor under Henry VIII.

"Sir John," says Dr. Beard, "may be called an English Bluebeard, for there is a definite tradition that he was in the habit of inducing women to visit him and murdering them for their jewelry. He kept the bodies of his victims in a secret chamber beneath the main staircase, and his ghost is supposed to haunt that room to this day."

Dr. Beard intends to renovate the castle and probably will live in it when the work is completed.
